

**WEATHER FORECAST.**  
Continued cold tonight; Saturday fair, and not quite so cold.

## DELIVERIES OF COAL ARE MADE OVER THE STATE

Improvement of Transportation Facilities In Past Twenty-Four Hours

STATEMENT ISSUED BY GOVERNOR COX TODAY

Hundreds of Empty Cars Being Rushed to Mines to Be Loaded

(Associated Press Telegram)  
Columbus, Dec. 14.—An end to lake coal traffic and improvement in transportation facilities in the last 24 hours has been followed by a general distribution of coal throughout Ohio, according to information furnished Governor Cox by the Ohio federal fuel administration office today. Coal originally consigned to the lakes, but now being diverted to domestic use, largely will not last long, but immediate benefits will be in the release of cars and adjustment of the railroads following the strain of the past month, an official statement declared.

Summarizing the numerous reports to his office, Governor Cox issued the following statement of conditions today:

"Lake coal within the state is now being distributed. The initial process of switching began yesterday and deliveries are going on in the communities this morning. The lake coal will not last long. After it is used up, our hope must then come from increased delivery of coal along the normal commercial lines from the railroads. The statement was made yesterday that when the movement of lake coal across the state stopped, and the railroads began to adjust themselves with this strain removed, considerable improvement would come quickly. The conditions this morning are wholly confirmatory of this."

The Hocking Valley railroad, the fuel administration was informed, placed 160 cars at mines yesterday to be loaded. Friday morning 253 cars were added. This is 70 per cent of capacity. Yesterday the same railroad started 471 cars from yards and terminals, of which 300 cars were Hocking coal. Movement was estimated at 25 per cent better today than yesterday.

The situation southbound also is improved. Yesterday 272 coal cars moved south from Toledo toward the mines. Friday this was increased to 40. It will be 500 Saturday, railroads promised. The normal movement on the Hocking Valley north is 900 cars daily, south 700 cars daily. The Toledo & Ohio Central railroad placed 108 empty cars at mines on one branch today, a report said. On another branch 161 cars were placed. The Pennsylvania movement of trains, according to today's report, was 80 per cent of normal, and in cars 50 per cent of normal. It was stated that this figuring probably would not be materially increased during cold weather, but it is considerably better than in the past fortnight.

On the lake front yesterday 200 cars were released for Toledo and between 60 and 75 to Sandusky. Lorain was advised to take over all lake coal in the wards, estimated at 60 cars. Ashtabula had approximately 30 cars and orders were given to appropriate them.

"An approach to normal conditions depends upon two things," Governor Cox declared in summarizing the situation today. "First, the end of the lakes coal traffic and the priority order which joined to it and an improvement in railroad transportation. The first now is a matter of reality. The second is improving daily. The future seems to hold a certain guarantee against a recurrence of anything approaching present conditions."

The New Pittsburgh Coal company, operating concerns with offices in Columbus, today offered to have all coal in transit in their name diverted for community relief and Governor Cox said that similar action by other concerns for a few days will be a considerable contribution to better things.

While the improvement in general conditions for future better moving of fuel was being surveyed, calls for help from all parts of Ohio continue to pour in. When the governor reached his office early today telegrams urging immediate state assistance in getting coal were awaiting him from Cedarville, Santa Fe, Lewisburg, Wauseon, Helena, Rock Creek, Fitch, Norwalk, Medina, Warren, Portsmouth, Akron and other cities.

It was apparent today that differences between Dr. Garfield of the federal fuel administration, Washington, and Governor Cox ended yesterday.

"We are not concerned about the controversy," declared the governor this morning. "Dr. Garfield's statements yesterday were very manifestly made without any understanding of the facts. What we are after is coal—not controversy."

Absence from the Columbus office of Homer H. Johnson, the state fuel administrator, who has paid but three visits since October 23, was sharply criticized by the chief executive however. In a statement to newspapers, he declared:

"We feel sure that the Ohio experience will convince the federal (Continued on Page 2, Col. 3.)

## HELL RUN U.S. MONEY FACTORY

James L. Wilmett.

Uncle Sam's money factory is to be directed now by James L. Wilmett, new director of the bureau of engraving and printing. He is from Tennessee and started in the government service twenty years ago as sorting money orders for \$80 a month.

## TO OPPOSE MEMBERS VOTING AGAINST THE SUFF AMENDMENT

(Associated Press Telegram)  
Washington, Dec. 14.—Recommendation for the executive council of the National American Women's Suffrage Association that in case the suffrage amendment to the constitution is defeated at this session of congress a vigorous campaign be waged against the re-election next year of members opposing the measure, was up for discussion at today's session of the association's convention. Leaders were confident of a speedy adoption of the suggestion. Nomination of officers for the coming year was the principal business of the afternoon meeting.

## NEW INFORMATION IS IMPARTED BY MAJ. GEN. CROZIER

(Associated Press Telegram)  
Washington, Dec. 14.—Statements regarding the protective delivery of rifles considered confidential by the war department, and other matters the witness declined to discuss publicly, were given today by Major General Crozier, chief of ordnance, at an executive session of the senate military committee's inquiry into alleged delays in supplying the war army.

General Crozier yesterday put the responsibility for the shortage squarely upon Secretary Baker, asserting that the secretary had taken a personal interest in the matter and ordered tests of various machine guns which resulted in the adoption of a new gun known as the Browning type.

## REPORTS ON RURAL CHURCHES OF OHIO

(Associated Press Telegram)  
Cincinnati, Dec. 14.—The results of a three years' study of the rural church in Ohio was made public at today's session of the executive committee of the federal council of churches of Christ in America. The subject was brought to the attention of the council by Rev. Charles O. Gil of New York, secretary of the commission on church and country life who submitted a report on "Rural Church Conditions in Ohio."

Another speaker at today's session was Professor Alfred W. Anthony of Augusta, Maine, secretary of the International Commission of that state who discussed "The Borderland of a New Denominationalism."

Rev. Roy B. Guild of New York, executive secretary of commission on interchurch federations spoke on the "Progress of City Federations."

The prohibition session of the council which was scheduled for tonight has been called off, out of courtesy to former President Theodore Roosevelt who is to speak at a public meeting at Music Hall here tonight.

## ROOSEVELT WILL VISIT CAMP SHERMAN BOYS

(Associated Press Telegram)  
Camp Sherman, Chillicothe, O., Dec. 14.—Colonel Theodore Roosevelt will pay a visit to Ohio and western Pennsylvania selects at Camp Sherman tomorrow, according to word received today. Colonel Roosevelt will speak in Cincinnati tonight and it is not known just what time he will arrive or how long he will stay here. Plans are being made for him to address the officers.

## BURGLARS MAKE HAUL

(Associated Press Telegram)  
Toledo, Dec. 14.—Burglars stole \$1,000 worth of merchandise from the Mittenhall general stores East Side, last night.

## RELATIVES OF GRACE LEHMAN ON THE STAND

Testify to Events Happening Immediately Preceding Woman's Murder

WILL CLAIM REVOLVER "PLANTED" UNDER HOUSE

Farmers and Their Families For Miles Around Are Attracted to Courthouse

(Associated Press Telegram)  
Wauseon, O., Dec. 14.—Reuben Hall, father of Mrs. Lehman, killed on the night of September 16, is still on the witness stand. Assistant Prosecutor Ham said he may save the best of Hall's testimony for rebuttal. He expects to be able to show that Daniel Lehman, father of the accused, told Hall he "believed Fred murdered Grace." Hall testified Lehman told him he was running away from "bandits" when he was shot.

The coroner's testimony of Wednesday was to the effect that the bullets entered from the front of Mrs. Lehman's body. Favorite Hall, aged 11, brother of the murdered woman, testified he saw a revolver in the Lehman home like that presented in evidence. Several witnesses testified that Lehman told them he was running away when he was shot by "bandits."

During today's trial members of the dead woman's family also are expected to take the stand and tell what they know of the life and conditions under which Mr. and Mrs. Lehman lived during their short married life.

Favorite Hall, 11-year-old brother of Mrs. Lehman, already has testified that he had heard his sister tell her husband not to go automobile-riding with Mrs. Fenton "too much." He testified that when she said this "she would get mad and look as though she was going to cry."

Farmers and their families for miles around are attracted to the courthouse. One visitor boasted he occupied one seat for nine hours that he might hear all the testimony. It developed this morning in the trial of Lehman, already that both sides will attempt to prove the revolver found under the milkhouse several days after the killing was "planted."

A furious battle over this little weapon, which is now a part of the evidence, has been raging ever since the trial got under way. Lehman's attorneys stated to the jury that the pistol was "planted" and the state is bringing out evidence to show the same thing.

Testimony developed that the gun was found by Reuben Hall, father of the murdered woman. Hall's son, Favorite, has testified that he saw a gun that looked like the 22 in Fred's home. Various witnesses have testified that Lehman told them he had no gun except a shot gun.

Further sensational developments are expected today when Mrs. Alea Fenton, "the other woman," is expected to take the stand again in the state's case. Mrs. Fenton already has told much about her relations with Lehman. The state attorneys say they will prove that it was because of Lehman's love for Mrs. Fenton that he murdered his wife.

## PROMISE OF A SECOND STORM

(Associated Press Telegram)  
Washington, Dec. 14.—Most of the country was in the grip of storms and cold weather today and under cover of snow throughout its northern parts, forecasts from the Atlantic coast predicted that the storm would be much impeded. The unseasonable cold extends to the Gulf states.

Snow was forecast for tonight and probably Sunday in northern New England and along the great lakes with a marked fall in temperature in New England, and a continuance of the cold in the Atlantic coast districts. Come moderation of the cold is predicted about Sunday or Monday for the Ohio valley. The east Gulf states and the upper lake region where it is causing distress because of inadequate coal supplies.

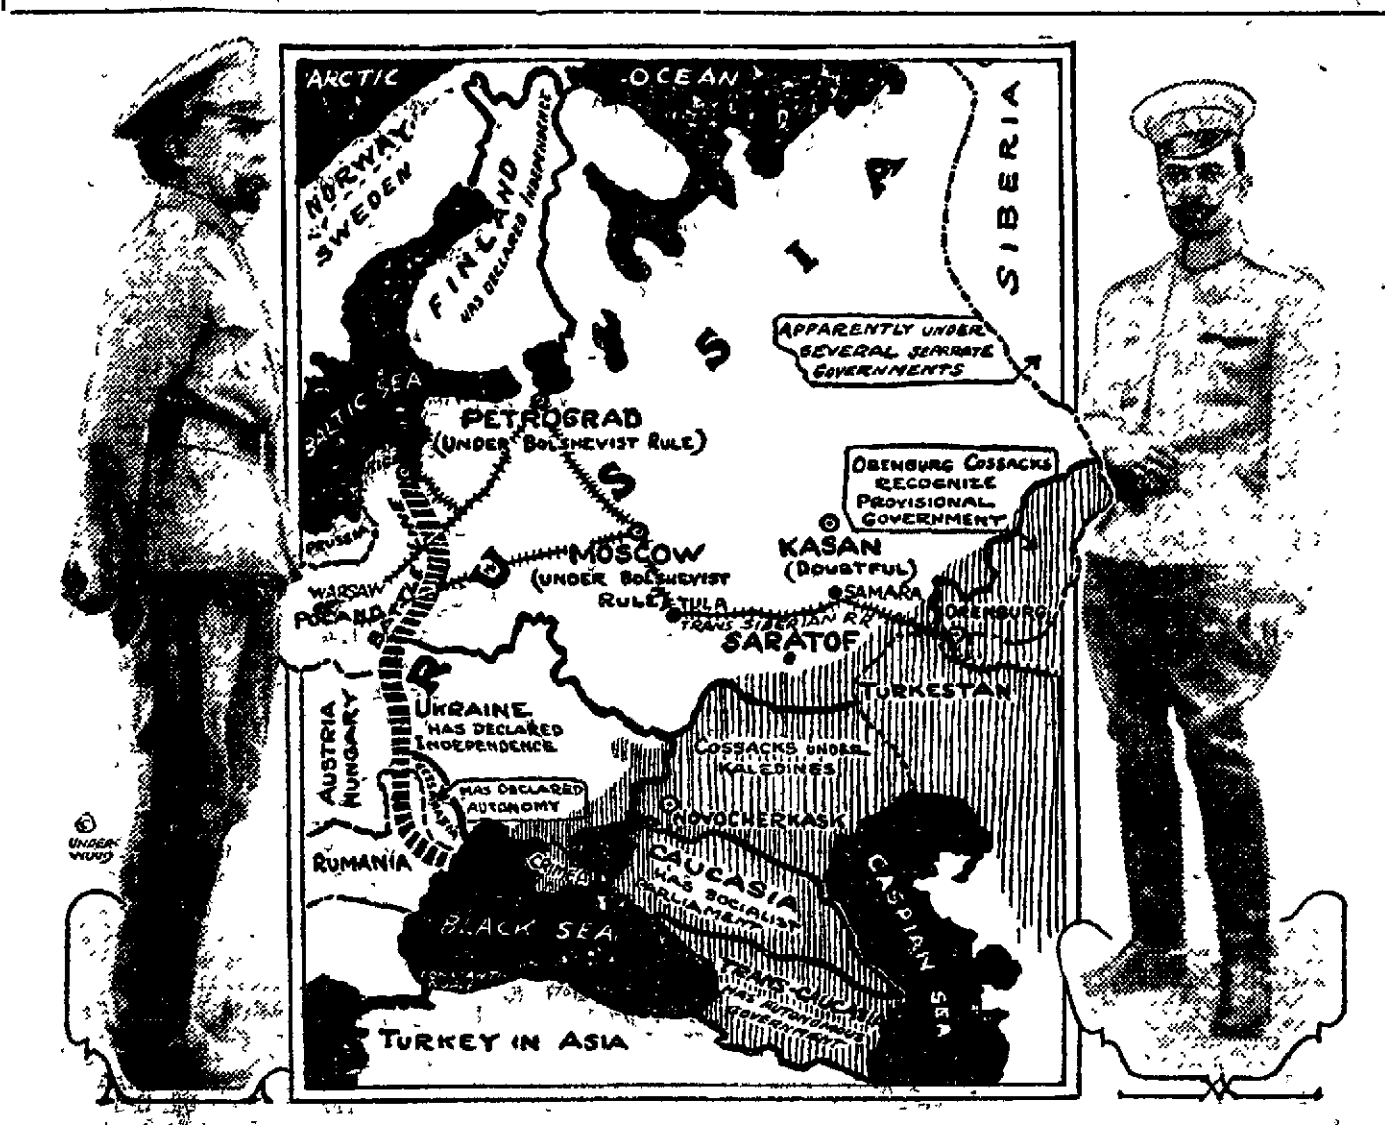

The second pronounced storm is moving southeastward from British Columbia, causing rains in Washington and Oregon and snow over the north Rocky Mountain and western regions.

## NEW YORK VISITED BY BIG SNOW STORM

(Associated Press Telegram)  
New York, Dec. 14.—A snow storm approaching blizzard proportions that raged throughout the night crippled all traffic in New York today, interrupted telegraph and telephone service, brought intense suffering to the poor and accentuated the serious shortage of coal.

The gale whipped up a heavy sea, driving small craft to shore and causing considerable damage along the water front.

## KALEDINES-KORNILOFF COSSACKS EXTEND CONTROL OVER RUSSIA

The gradual spread of the power of the Cossacks indicates to many students of Russian affairs that the next government of the troubled ally will be in the hands of Generals Korniloff and Kaledines, Cossack leaders, who are in open revolt against the Bolsheviks.

## BOLSHEVIKI CLASH WITH COSSACKS AND BOTH SIDES SEND REPORT OF A VICTORY

(Compiled from A. P. Dispatches)  
The Bolshevik announcement is made by the official government at Petrograd that the Russian delegates to the armistice conference now in progress at Brest-Litovsk are empowered to begin negotiations with the central powers if an armistice is signed.

Meanwhile the struggle for power in the interior of Russia is growing more bitter. Advantage in the civil war are claimed by both sides. In the fighting with Kaledines' Cossacks in the vicinity of Bielgorod, some 350 miles south of Moscow, while the Cossacks are reported victorious at Rostov-on-the-Don, capturing the city and forcing the Bolshevik troops to retreat across the Don.

Attention is attracted by the fact that the German press is being permitted to predict a German offensive on the west front, a rather unusual attitude to any new aggressive move by the Germans especially immediately preceding one.

This front, however, is admittedly more active as a whole on the German side than for a long time, with brisk artillery battles and reconnoitering thrusts in force, frequent occurrences at point after point along the extended line. An artillery action, it is to be noted, has broken out in the Champagne which has been pointed to as one field where the Germans might attempt an offensive in an effort to break through on the line to Paris.

Bolshevik forces apparently have

been successful in the first clashes with the counter revolutionists and it is reported they have captured the towns of Tamanovka and Kaluga. General Kaledines is besieging Rostov-on-the-Don, the largest city in the Don province and heavy fighting has been in progress there since Sunday.

Tamanovka is near Bielgorod, 350 miles south of Moscow and near where the forces of General Korniloff, also a counter-revolutionist, are reported to have been engaged in a heavy battle with Bolsheviks. One report said Korniloff had been defeated and wounded while another says he has been victorious. There is a railroad town named Kaluga 100 miles southwest of Moscow and if this is the town referred to in the unofficial report from Petrograd it appeared that the counter revolutionists had approached near to the old Russian capital than previous reports had indicated.

Severe fighting has been going on in and around Rostov, which is only 25 miles southwest of Novo Tcherkassk, the Don Cossack capital. Kaledines' troops besieged the city while Cossack forces within Rostov attacked the Bolsheviks.

The losses are reported to have been heavy on both sides. The Bolsheviks, reported to be commanded by Ensign Krylenko, the Bolshevik commander in chief were aided by the transport Kolchida. Wire communication with Rostov has been broken and one railroad line reaching the city was cut.

Artillery and local infantry fight-

ing has been in progress on the western front, to which the Germans are still rushing troops and supplies. The enemy has attempted further massed attacks since Wednesday and there is still no outward sign of where his expected blow is to come.

In the Cambrai area yesterday the British stormed a German post on the southern end of the sector, while on the northern end there was a heavy fighting in which German prisoners were captured. German artillery has been especially active south of the Scarpe in the Arras area and northeast of Ypres in Flanders. Interim artillery activity continues along the French front. The only infantry action has been near Juvenot, north of Rheims where a German attack was repulsed.

East of the Brenta river, on the northern Italian front there has been further bitter fighting. Austro-German troops, reinforced by fresh reserves attacked the Italian position in valleys descending toward the river from the Col-Della-Bretta range. Italian resistance held the attackers and forced them to give up the fort after having suffered heavy losses. Other violent attacks in the same region brought no gains for the enemy.

German bombs have killed a number of American railway engineers in a town behind the British front. In another town a German bomb fell in a street through which American troops were marching. Although the missile fell very close, no injuries resulted.

## TROOPS FROM PETROGRAD IN THE FIGHTING

Which Took Place In Tamanovka District South of Moscow

REPORT GEN. KORNILOFF HAS AGAIN DISAPPEARED

Anti-Bolshevik Elements Attempting to Organize the Assembly

(Associated Press Telegram)  
London, Dec. 14.—Bolshevik troops have occupied Tamanovka and Kaluga according to a Reuter dispatch from Petrograd.

Tamanovka is near Bielgorod, in Krusk province, about 350 miles south of Moscow. There is a railroad town named Kaluga, in the province of the same name, which lies about 100 miles southwest of Moscow.

Tamanovka was occupied by troops from Petrograd, while Kaluga was captured without much fighting. The counter revolutionary troops there were disarmed and arrested. The commissioners with the Black Sea fleet have telegraphed asking for the immediate dispatch by land and water of all Black Sea detachments now ashore. They also ask for a large number of machine guns. The commissioners report that military cadets are attacking Rostov with armored cars.

(Associated Press Telegram)  
Petrograd, Dec. 13.—The staff report on the Bielgorod fighting says that the Korniloff forces lost 50 killed and 80 prisoners. The report adds that General Korniloff has disappeared. A description of the Rostov fighting says that shells fired by Bolshevik gun boats in the river missed their objective but landed in the barracks of a Cossack detachment which had decided to remain neutral, but which fought for Kaledines when disturbed by the shells. It is reported that General Kaledines is prepared to negotiate with the Bolsheviks in order to avoid further bloodshed around Rostov.

The Bolshevik forces have defeated a "death battalion" in the vicinity of Bielgorod, where the fighting with the Korniloff and Kaledines forces centers. In the Orenburg district where General Duffort has a large force of Cossacks there has been little fighting and the Bolsheviks have sent agitators to work among his troops. It is reported that Kaluga has been taken by the Bolsheviks after the defeat of a counter revolutionary "death battalion."

The commander of the Black Sea fleet has called upon all the sailors to fight against Kaledines, declaring "Kaledines, together with the allied imperialists, has declared civil war."

The constituent assembly is determined to protest against the arrest of Prince Dolgoroukoff, A. I. Skingarov and M. Kokhokin by the Bolsheviks despite their membership in the assembly because their position brings immunity. The Bolsheviks have brought another regiment to Petrograd to strengthen their forces. It is reported that armies of the Ukraine are ready to defend the constituent assembly if it meets at Kiev.

At Bolshevik headquarters, it is reported that the anti-Bolshevik elements are discussing an attempt to secretly organize the assembly, perhaps hold it elsewhere than Petrograd and declare it legal. The army vote, it is indicated, is adding to the strength of the Bolsheviks but the Ukraine shows 48.9 per cent of the votes for the social revolutionists against 13.1 for the Bolsheviks.

One hundred Bolshevik Cossacks have been sent to southern Russia by the Bolsheviks. It is intended to have them enter the ranks of General Kaledines' forces and urge the Cossacks to desert Kaledines.

## RELEASED IN EXCHANGE FOR RUSSIAN OFFICERS

(Associated Press Telegram)  
London, Dec. 14.—The Russian authorities have ordered the release of all civilian German prisoners in exchange for 4,000 Russian officers. In German prison camps according to a dispatch from Haparanda printed in the Dagens Nyheter of Stockholm and forwarded by the correspondent of the Morning Post.

The commander of the fortifications at Sveaborg is said to have acknowledged officially the independence of Finland.

## BOB PECK ENLISTS

(Associated Press Telegram)  
Pittsburgh, Dec. 14.—Bob Peck, University of Pittsburgh football star and captain of the 1916 panther eleven, who was twice named an all-American center has enlisted in the second Indiana infantry field artillery, according to word received by friends here. Peck was football coach at Culver Military Academy the past season.

## PEACE NEGOTIATIONS

(Associated Press Telegram)  
London, Dec. 14.—Leon Trotsky, the Bolshevik foreign minister, according to a Reuter dispatch from Petrograd, announces that if an armistice for the eastern front is signed at Brest-Litovsk the Russian delegates are empowered to enter into peace negotiations.

## PUBLIC FUNERAL AT HALIFAX HAS BEEN POSTPONED

(Associated Press Telegram)  
Halifax, N. S., Dec. 14.—With the relief situation so well in hand that its services no longer were required, the Massachusetts unit, first on the ground here after the great fire and explosion, went home today. The departure of the delegation, members of the general committee declared, meant that the city of Halifax profiting by its help and its counsel, was prepared now to handle its own problem.

This is evident throughout the city. Each day has seen great progress made. The continued cold, however, has retarded work in the district laid bare by the blast of a munition ship and it will be days, perhaps, before the snow has melted sufficiently to enable soldiers and workmen to drag the ruins for bodies known to be there. The task of rebuilding the homes in a mile and a half square hardly can be accomplished in a year. The big public funeral service planned for today was postponed until Monday because of the difficulty of opening graves.

Perhaps the most touching aftermath of the disaster is the fear generally experienced by citizens that for the first time in its history Halifax this year will not celebrate Christmas.

Some effort will be made to make the yuletide the happiest possible under the Christmas for the destitute and for the wounded who will be in hospitals long after the holiday season.

## PARENTS WILL DECIDE

Postoria, Dec. 14.—Whether the Postoria High school shall hold six-day-a-week sessions will be decided by the parents of the pupils.

## ROOSEVELT WILL BE INTRODUCED BY GOV. JAMES M. COX

(Associated Press Telegram)  
Cincinnati, Dec. 14.—Theodore Roosevelt will address a patriotic meeting at Music Hall here tonight and the ex-president, previous to his appeal for thrift and the success of the thrift movement will be introduced to his audience by Governor James M. Cox of Ohio, while on the same stage and as a guest of honor will be Governor Millikin of Maine who is here attending a church meeting.

Previous to the public meeting Colonel Roosevelt, Governor Cox and Governor Millikin will be the guests of the Business Men's club at a luncheon in commemoration of its twenty-fifth anniversary. Colonel Roosevelt is scheduled to arrive here early today prepared to speak both at the luncheon and at the public meeting.

## EDDIE COLLINS TO ENLIST IN SERVICE

Chicago, Dec. 14.—Eddie Collins, star second baseman, for whom President Comisky of the White Sox paid the Philadelphia Americans \$70,000 three years ago, expects to enlist in some branch of war service soon, according to B. B. Johnson, president of the American league.

Johnson has had several communications from Collins concerning enlistment but said that one he received yesterday left little room for doubt that the Chicago second baseman will not wear a baseball uniform next season.

Mt. Vernon—Edwin Overly of Fredericktown, and Eva Gleason of Levering, married.

## JURY MAY HAVE MEANS CASE BY THIS EVENING

(Associated Press Telegram)  
Concord, N. C., Dec. 14.—John T. Dooling, assistant district attorney today took the jury in the trial of Gaston B. Means, along the pathway of the defendant's career as business manager for Mrs. Maud A. King, with whose murder he is charged, and pointed out and explained link by link the chain of evidence which the state contends establishes the motive for the alleged crime.

Mr. Dooling was the second speaker of the day and the last but one for the state. He pointed out from the evidence that when the defendant became connected in 1915 with Mrs. King's affairs he was living in a cheap flat in Harlem, had no considerable funds, his wife had about \$100 in bank. Within three or four months tens of thousands of dollars were deposited in cash to the credit of Mrs. Means, besides large bank accounts in Means' name. These deposits were made subsequent to the time he had gone to Chicago with Mrs. King and secured from the Woodruff Trust company securities and cash to the amount of \$192,000. The securities, he said, were taken back to New York and converted into cash.

Prospects were that the case would go to the jury by evening. The jury requested late yesterday when a member of counsel for Means, offered to take a recess, that he continue and that there be no unnecessary delay.

The state contends that Means misappropriated the woman's fortune and killed her when she came here for a visit last August, to avoid the consequences. Denial of the charge of misappropriation and a claim that Mrs. King shot herself accidentally have been made by the defense.

## This Store Leads In Smart Ready-for-Service

# Suits and Overcoats

YOU'LL be amazed at the tremendous assortment, the wonderful values we are offering at this time at

**\$15 to \$25**

All the fashionable fabrics, models in Suits and Overcoats, tailored to our order by Stein-Bloch and other reliable makers of Smart Clothes for Men and Young Men awaits you here and now.

**HUGHELLIS**

21 WEST CHURCH STREET.

## CONFESSED TO THE BURGLARY OF THE HAMILL RESIDENCE

Through the alertness of the police department and the detective mind of Officer Ed Hurlbough the burglary of the J. K. Hamill home in North Fourth street on March 13, 1916, has been cleared up and Ted Lewis, alias W. M. Rodgers has confessed to the theft.

Lewis, as he calls himself now, has been in the city prison for several weeks on a drunk and disorderly charge. Recently a woman from Indiana wrote Mayor Bigbee, asking the nature of the mischief for which he was incarcerated, and the amount of the fine. As he had been a nuisance in the city the mayor thought he might release him, providing he left the city at once.

This morning Lewis was brought before the mayor in police court and when asked if he had any money, said he had a check for \$9 when arrested from the Ohio Electric. The check, however, was made out to Rodgers, and Officer Hurlbough at once suggested that he thought this might be the Rodgers wanted for housebreaking.

He was questioned concerning the check and giving no explanation the case was investigated, and later Lewis confessed.

At the time of the robbery Lewis

was staying at the home of a sister in Moultrie street, having come from another town. Later some of the clothing taken from the Hamill home was recovered, but Rodgers had left town. Under the name of Lewis he was picked up for being drunk and breaking bottles in the street.

## OLD FIRE TRUCK SHOULD BE SENT TO A JUNK PILE

Again the Central fire trucks were in disrepute yesterday, when a call came from "Texas." The ladder truck which was disabled the day before had been replaced by a truck, and it made the trip in fine shape, but the hose truck, again stalled, and never did reach the scene of the blaze. It was necessary to depend on the East Newark department for hose.

The call was to the home of Frank Wagoner, and the fire was caused by the sprouting of oats in the cellar. The blaze igniting from a lamp.

**Encourage Stammering Child.**  
Never laugh at a child who stammers. Rather, seriously try to help him while he is a child, for the habit grows. Make him stop and rest a moment, then have him repeat what he was saying, very slowly, even resting between words. This alone often corrects the trouble. When you see that your child is embarrassed, do not hurt him, but wait, smiling encouragement, and when he is more at ease, say, softly, "now I am ready to listen," just as if you, and not he, were the cause of the delay.—Buffalo News.

**How Silk Worms Work.**  
On attaining their full growth silk worms seek something to which to attach themselves in order to wind themselves up in their silk envelopes. Having found it, the worm spins a thread from 500 to 1,000 yards long, wrapping it around its body as it spins. This takes from 36 to 48 hours. If left alone the worm's skin hardens, its internal organs disintegrate in a thin jelly and then begin reorganizing themselves into those of a butterfly. Within a week or ten days it would be a butterfly and as such would eat its way out through its envelope of silk.

A man must be pretty good comedian for himself when he would rather play solitary than poker.

**BELL-ANS**  
Absolutely Removes Indigestion. One package prevents 25c at all druggists.

## DELIVERIES OF COAL ARE MADE OVER THE STATE

(Continued from Page 1)

administration that there must be flexibility in orders with discretion in state representatives who should be at all times required to be on the job to meet emergencies that arise.

Commenting on the probable best solution of the situation, Governor Cox declared that the railroad pooling commission can render very great service if it will send locomotives to Ohio roads.

With lake shipments out of the way and resumption of railroad traffic on a basis of 100 per cent winter efficiency we ought to be able to keep the mines supplied with cars and consumers with coal. The federal plan of fuel administration of fuel administration is unquestionably necessary. We must inventory our fuel resources and make such use as an intelligent survey of necessities of the nation suggest. Mental anguish is an inevitable incident of war but if physical suffering is entailed by an administrative mistake, then governmental policy is apt to be questioned instead of the act itself. It is to provide against this that the President's attention was drawn to Ohio conditions. The episode ought to convince Dr. Garfield that orders should be less arbitrary in some instances at least in order that there can be a flexibility, common sense adjustment to unforeseen events.

## MAJOR BIGBEE HEARS FROM GOVERNOR COX.

Hon. R. C. Bigbee, Mayor, Newark, Ohio.

My Dear Mayor—This will acknowledge receipt of your letter of the 12th instant. We have full appreciation of the extremity to which we have come in this emergency.

The state fuel administrator has been authorized to distribute the various communities in need of coal in transit in Ohio for lake shipment, and everything possible to be done for relief will be done.

I am asking Mr. Johnston to give prompt attention to your appeal.

James M. Cox, Governor

## SITUATION IN CLEVELAND.

Cleveland, Dec. 14.—The coal shortage in this city today threatened to close down all high schools in the city in addition to the elementary schools which will be dismissed next Friday not to reopen until January 28, when an adequate supply of fuel to last throughout the winter is obtained. Four more schools were closed today.

The fear that it will be necessary to close the high schools is based on the prediction that Cleveland will receive but little of the 2200 carloads of lake-consigned coal that is being distributed to the domestic consumers throughout the state.

School Director Hogan said today that he may "do a little coal seizing himself to obtain a part of the lake coal for Cleveland schools."

On top of the coal shortage the weather bureau announced today that continued cold weather is in store for Cleveland predicting that the thermometer tonight will drop to four above zero. Long lines of people stood in front of the auditor's office at the city hall today to place an order for coal being distributed at the city yards.

Two hundred and fifty employees of the National Tube company at Lorain were out of work today because of the fuel situation. The plant will remain closed indefinitely, it is said.

## TALKING MACHINE OF 1772

Had Wooden Mouth With Lips of Soft Leather, and Was Invention of Erasmus Darwin.

That someone was puzzling over the idea of making a phonograph as early as 1772 is proved by an extract from a hitherto unpublished letter by Dr. Erasmus Darwin (grandfather of Charles Darwin) to Benjamin Franklin, quoted by Dr. L. Huxslof in Science. "I have heard," wrote Dr. Darwin "of somebody that attempted to make a speaking machine. Pray, was there any truth in any such reports?"

And Dr. L. L. Woodruff of Yale university quotes the following interesting paragraph from a note in the "Temple of Nature," published by Erasmus Darwin in 1802:

"I have treated with greater confidence on the formation of articulate sounds, as I many years ago gave considerable attention to this subject for the purpose of improving shorthand; at that time I contrived a wooden mouth with lips of soft leather, and with a valve over the back part of it for nostrils, both of which could be quickly opened or closed by the pressure of the fingers, the vocality was given by a silk ribbon about an inch long and a quarter of an inch wide stretched between two bits of smooth wood a little hollowed; so that when a gentle current of air from bellows was blown on the edge of the ribbon it gave an agreeable tone, as it vibrated between the wooden sides, much like a human voice. This head pronounced the p, b, m and the vowel a with so great nicety as to deceive all who heard it unless, when it pronounced mamma, papa, map and pam; and had a most plaintive tone when the lips were gradually closed."

**APPROPRIATION PASSES.**  
Washington, Dec. 14.—The post office appropriation bill aggregating \$333,000,000 including \$1,200,000 for censorship of foreign mails and without any appropriation for pneumatic tube service in New York, Boston, or elsewhere, was passed today by the house. It now goes to the senate.

**Miss Wisdom.**  
He—How about getting married?  
She—Getting married—if it's the right girl—should double the life of your tires, and cut your gasoline bill in two.—St. Louis Globe Democrat.

## OHIO BRIEFS

Ironton—Panic created on Ohio Valley Traction car by two men who attacked the conductor and started using revolvers. They escaped.

Bryan—Whooping cough and pneumonia caused the deaths of two children in John Hoffman's family. The family was found to be without fuel.

Bladensburg—Schools are closed on account of low gas pressure.

Mt. Vernon—In next week's Red Cross campaign all people having telephones will be reminded of the campaign by the operators.

## Snow and Ice Worms.

There are at present known in the world approximately 80 species and varieties of snow and ice worms. Sexually mature specimens, yellowish to a dark reddish brown or black in color, about an inch long and one-twentieth inch in diameter were found in February and April (1916) abundantly on the open snow fields of Mount Rainier, at an elevation of 2,750 to 5,000 feet above sea level. They also occurred on the snow on the mountain slope protected by a dense forest of fir and hemlock.

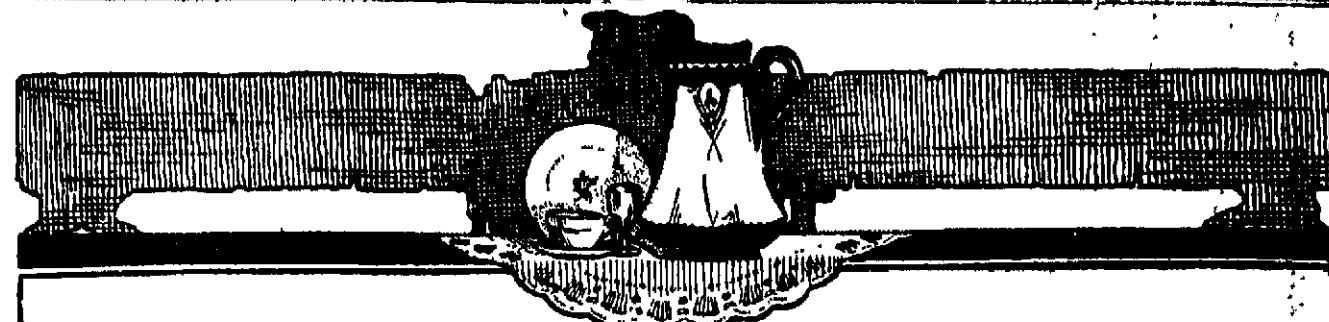

These worms have not thus far been found on solid ice nor on the glaciers, though they occur on the snow below the ice from and outside of the lateral moraines of the Nisqually glacier. The snow on which they were found is not permanent through the entire season, but melts with the coming of summer, and it therefore appears that a part of their life must be spent on or in the ground.

## TRIALS AFTER JAN. 1.

Associated Press Telegram  
Toledo, Dec. 14.—Wanda Urbatis, her brother, Joseph, and four others were indicted by the grand jury for complicity in the \$37,000 Raeburn Brewery robbery here two weeks ago. Trials will be held after the first of the year.

## No Chance.

Judge—The police say that you and your wife had some words.  
Prisoner—I had some judge, but I didn't get a chance to use them.—Puck.

## Save Yourself in Dish Washing

The soap you use with the dishes seems a little thing, but—

Count the number of dishes you wash in one day and multiply them by 365.

It's a real saving to use a soap that cuts grease as speedily as Fels-Naptha. It means work finished more quickly and with less effort. It means everything spotlessly clean.

Keep using Fels-Naptha with the dishes.

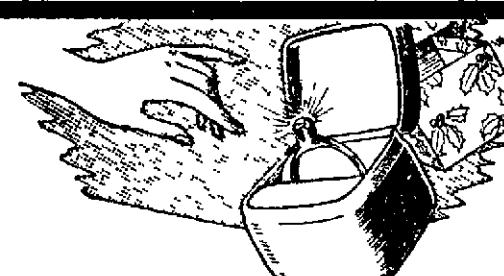

At your own grocer's in the Red and Green wrapper.

To keep white clothes white use Fels-Naptha.

**A Fatal Wash.**  
Wife (with newspaper)—A drunken man fell overboard and was drowned. That shows the evil result of whisky drinking.  
Hub—Not at all, my dear. It merely shows the bad result of too much water after one's whisky.—Boston Transcript.

## The Quinine That Does Not Affect Head

Because of its tonic and laxative effect Laxative Bromo Quinine can be taken by anyone without causing nervousness or ringing in the head. There is only one "Bromo Quinine." E. W. GROVE'S signature is on box. 30c. 11-9-f-t

# How To Deal With the Pro-German Lie-Mongers

War Ananias Clubs are advocated for the identification and segregation of circulators of malicious rumors and false reports tending to cast suspicion and distrust upon our Government and thus hamper the prosecution of the war.

We are all familiar with the "treason-factory output" telling of American battleships being sunk by the German navy and the news suppress; of thousands of American soldiers who have been killed; of a German army to invade us through Canada; of hundreds of thousands of Germans who are drilling in this country for a revolt; of Secretary Tumulty being charged with treason; of our troops in France suffering for food and of their having quarreled with the British, and the hundred-and-one other rumors that are being industriously whispered from mouth to mouth.

In THE LITERARY DIGEST for December 15th, the details of the subject are taken up and various suggestions made for the suppression of this most insidious form of propaganda. A copy of the "fake" letter which has been going the rounds is reproduced and directions as to what patriotic Americans should do to suppress this and other "fakes" are given.

Other articles of more than ordinary interest in this issue of "The Digest" are:

## America's War Aims: Victory and Justice

How the President's Message Has Welded More Closely the European Allies and The United States, and Heartened Them Anew in the Unalterable Determination to Win the War

## Proving "The Digest"

You need THE LITERARY DIGEST—and we can prove it. Stop at a news-stand, invest ten cents in this week's number, and you'll have all the proof necessary. One glance through a copy will convince you that it is the only sure way by which you can intelligently follow the world's news and keep well informed on the events of the day. You will value, first of all, its time-saving conciseness which helps you to pick out any subject of interest and get the vital

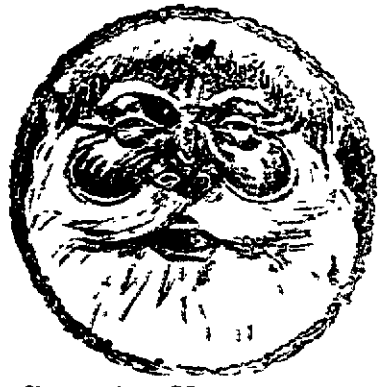

points in a moment. You will admire its stand for the whole truth when you see every question presented from every view-point. You will feel the appeal of its many interesting stories of individual experience and enjoy the humorous, suggestive cartoons. You will follow the example of 2,000,000 others and read THE DIGEST from cover to cover. Get this week's number and see if you won't.

# Now For The Fireworks!!

We foresaw the great advance in prices, before war was declared, and laid in a tremendous stock. We have carload upon carload of groceries stacked up in our warehouse. We undersold, and held prices slashing sales, but find that we are still heavily overstocked. We are going to hold one of the most sensational sales this state has ever witnessed. We showed a list of the prices to one of the wholesale grocers, and he offered to buy it all at those figures. We make a living from the consuming public and therefore are going to give them the benefit of these prices. This sale begins SATURDAY, DEC. 15, and lasts until DECEMBER 25TH. None of these articles can be duplicated at the prices we offer, so come early and don't get disappointed.

## Here Is a Great Investment For Your Christmas Saving Money

- NEW FIGS, large package, 15c value.....12c

## COAL FURNISHED THROUGH EFFORT OF LOCAL PASTOR

Citizens of West Newark are singing the praises of Paul E. Kemper, pastor of the Neal Avenue M. E. Church, for his activity in providing coal during the recent cold weather. Rev. Kemper formerly resided near the Crooksville coal district and has been able to secure four car loads of the precious fuel from operators with whom he is intimately acquainted and had it shipped to Newark, the last car reaching this city last Monday.

Rev. Kemper then established a distributing station and had the cars placed on the siding near the cement works in West Newark. He had a man there Monday and Tuesday nights to take care of urgency cases and the pastor and others of his congregation assisted in unloading the cars. Mr. Kemper having his feet frosted. Issuing of coal was not confined to members of the congregation but to West End citizens in need of same.

Many heart-rending cases came under his observation. Monday night he was telephoned by scores of people whose gas had given out. One woman said: "Our gas has given out and I have a little baby that"—and then she broke down and began to sob. A man came to the phone and finished the conversation and was told to take a sack and go to the car. An hour afterwards Rev. Kemper was called again by the same woman who thanked him and with a voice resonant with happiness and said that they had a fire now and baby was all right and it was so warm and comfortable.

Scores of women broke down and cried when appealing for coal, strong, hard working men appealed for aid to relieve their families' distress and all were taken care of. The same situation existed over every section of the city, well-to-do as well as the poor suffering for want of fuel. In a number of instances homes with little babies, others with sickness were without fuel and these were taken care of by several organizations as well as private concerns and factories who had coal to spare. The situation today is in much better shape, but there is still a great shortage of coal.

## CLENDENING PICKED FOR UTILITY BOARD BY GOVERNOR COX

Columbus, Dec. 14.—Byron M. Clendening, Cincinnati, utilities commissioner.

J. D. Clark, Dayton, industrial commissioner.

E. E. Nolan, Steubenville, liquor license commissioner.

These appointments are announced by Governor Cox. All three are Democrats.

Cleldening, who has been on the state liquor license commission since 1913, succeeds the late O. H. Hughes on the public utilities commission.

He was reappointed to a six-year term on the liquor commission last August at \$5,000. His salary as utilities commissioner will be \$4,500 for the term ending Feb. 1, 1919.

Yaple on the state industrial commission for the unexpired term ending June 30, 1915.

## NAVY RECRUITING STATION OPENED AND SEVEN MEN ENLIST

R. Heck, chief electrician in the U. S. navy, and H. S. Carter, ship fitter, on Friday morning opened the recruiting bureau for the navy in Memorial hall.

Up to 10 o'clock seven men had enlisted, and will be sent to Parkersburg for examination. All the men are over 21 years of age and will leave the city as soon after enlisting as possible to facilitate the work of the draft boards. The enlistment for men between the ages of 21 and 31 closes on December 15.

The men who signed up this morning were: Elmer Henderson, McConnellsville; W. F. Bonifant, 172 South Williams street; Elmer E. Cady, 115 North Sixth street; Samuel Kuhn, 234 Hudson avenue; Morgan J. Matthews, Newark; Lynn Rodeniser, 97 Church street; J. W. Little, McConnellsville.

## OPEN MEETING FOR THE G. A. R. BOYS

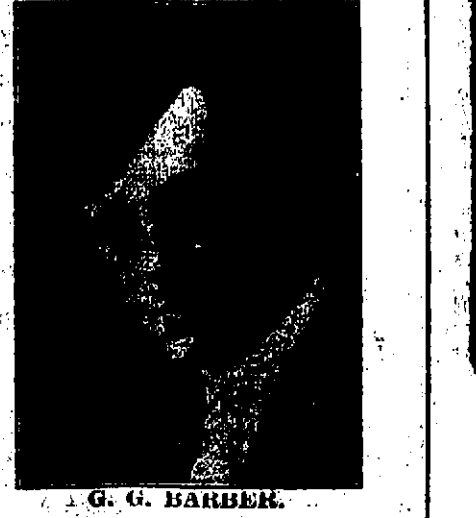

The G. A. R. open meeting for December will be held Sunday afternoon at 2 o'clock. The Lemer Post annual memorial service for 1917 will take the place of the usual open meeting program. Seventeen comrades of Lemer post have died during the past year. Rev. A. B. Cox of the East Main Street U. B. church will preach the memorial sermon. Miss Reba Bailey will recite "Which Way Did My Mamma Go?" Suitable field and other music will be rendered. Friends of the deceased comrades and the public are invited to be present.

## ANOTHER SURVIVOR OF THE JACOB JONES

Washington, Dec. 14.—Vice Admiral Sims notified the Navy Department yesterday that Lester Joseph Gilson, a seaman, previously listed among the missing of the destroyer Jacob Jones, has been found among the survivors. Gilson's mother, Mrs. Alvina Gilson, lives at Green Bay, Wisconsin.

Even the thermometer isn't apt to be an early riser these frosty mornings.

## GEORGE G. BARBER IS ELECTED SECRETARY

A group of prominent Newark men met last night to lay the foundation for a county-wide "War Work" organization. E. C. Wright was made general chairman and G. G. Barber, secretary. Mr. Wright is the cashier of the First National Bank and Mr. Barber is the insurance man who successfully managed the recent Y. M. C. A. drive. The report of last night's meeting appears on page 6 of this paper.

## MRS. VARNEY ON WITNESS STAND IN KEYES TRIAL

Dedham, Mass., Dec. 14.—Clinging to her story under cross-examination today, Miss Harriet A. Varney, on trial for the murder of Mrs. Pauline A. Keyes, repeated that she had been under the influence of the murdered woman's husband. She had loved him, she said, but not for some years. The defense has sought to show that the husband, George H. Keyes, was the dominating influence in the life of the defendant. The witness again described the dinner at which she said in her direct examination Keyes placed a drug in the lemonade she was drinking and told her of her life with Keyes at New York hotels. District Attorney Frederick G. Katzmann then adopted a different line of inquiry.

"Did you ever love George H. Keyes?" he asked.

"Yes," he asked.

"Did you ever hate him?"

"No," she answered. "I do not love George Keyes now and have not for several years," and at another time she said: "I never hated him but I did not love him on June 13. I think he always had control over me. I did not love him on June 17 but he knew I was afraid of him."

June 13 was the date on which she testified she told Keyes she was going to leave him. The day before she had gone to Brookline to expose to Mrs. Keyes her own relations with the real estate dealer. She did not find Mrs. Keyes at home.

## ASSIGNED TO DUTY BARRACKS NEAR VANCOUVER, WASH.

Archibald Davis, Jr., of this city and his cousin, Jas. E. Smith of Hebron, who enlisted recently in the signal corps of the aviation service and have been at the Columbus barracks, were visitors in the city yesterday, preparatory for leaving for Vancouver barracks in the state of Washington, where they will be trained for several months and then be sent into the forests to select spruce timber for airplane factories. Both young men are experienced in the lumber business, Mr. Smith having been engaged in same for five years and Mr. Davis three.

## STATE SEIZES SUGAR IN A RICH MAN'S HOME.

Warning to wholesalers and other dealers in food against allowing special privileges to stockholders and employees was issued by State Food Administrator Croxton yesterday.

He confiscated a barrel of sugar from the home of a wealthy Columbus stockholder of a wholesale grocery concern.

The barrel will be sold in small quantities by the Franklin County good committee, of which H. Sage Valentine is chairman.

Croxton declared he will deal more harshly the next time with a violation of this kind.

He has taken up with the Illinois food administration the question of dealing with Chicago mail order houses, which, it is reported, are selling sugar in as large as 100-pound quantities, when five pounds should be the limit.

## GRANVILLE R. F. D. 1

Mrs. Martha Gillispie returned to her home in Hebron having spent the week with her daughter Mrs. L. A. Woolard.

Mr. George Huffman was a Newark visitor Saturday.

Mr. E. C. Bacon spent Friday with Mr. Robert Musselman of Union Station.

Grace Strickler made a business trip to Granville Friday.

Mrs. Wm. Loyd and daughter Mamie were Newark visitors Wednesday.

Charles Conistford was in Newark Saturday eve.

Miss Helen Woolard was removed to her home in the Baxler ambulance from the City Hospital where she underwent an operation for Appendicitis; she is improving nicely.

Mrs. Markery Edwards is on the sick list at this writing.

Miss Orpha Brown spent Sunday with her parents Mr. and Mrs. J. H. Brown. The Misses Francis and Nellie Bacon and brother Robert spent Sunday with their Grandparents Mr. and Mrs. G. C. Stunt of Newark.

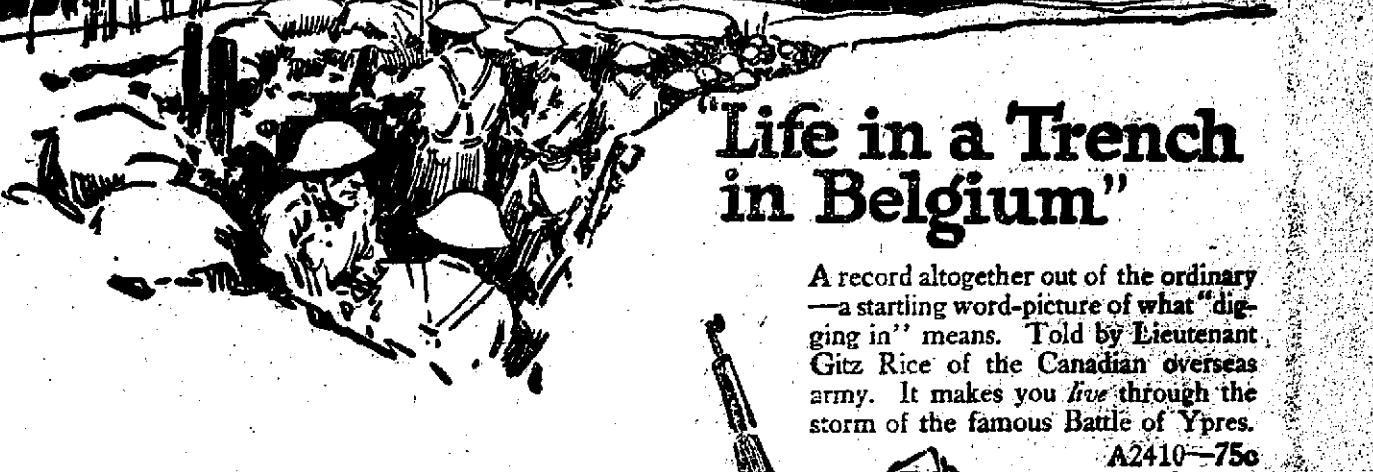

Mr. Gillispie Woolard spent Friday with his parents Mr. and Mrs. L. A. Woolard.

Not for Auntie.

Second Tommy—Come along, Bill, we're keepin' up with the blinkin' place, anyhow.—Cassell's Journal.

# Mid-Month List Columbia Records

## "Long Boy"

The great war song that marched East with the Western boys who are bound for France. "Long Boy" was as brave as he was thin, when the war broke out he got right in," singing "I may not know what the war's about, but you bet, by gosh, I'll soon find out!" We defy you to keep your feet from tapping time. On the reverse, Arthur Fields, the soldier-composer, sings "I Don't Want to Get Well!" to a fascinating Red Cross nurse.

A2409-75c

## "Somewhere in France is the Lily"

This clever marching song, introducing the flower emblems of the Allies, has already made a tremendous hit in vaudeville. On the reverse, "When the Great Red Dawn is Shining," a song that has been as popular in England as "Keep the Home Fires Burning."

A2408-75c

## "Naval Reserve March"

Sousa, the march king, is at his best in this great double dance record, and Prince's Band has done the composer's theme full justice.

A2398-75c

## "Ida! Sweet as Apple Cider"

Good old Eddie Leonard's "Ida," recently revived and now played by dance orchestras all over the country. Earl Fuller's Rector Novelty Orchestra has made a wonderful new fox-trot out of this old-time favorite.

A2403-75c

## "We're Going Over"

Just to listen to this rousing popular hit makes you wish you were "going over," too. On the back the Avon Comedy Four makes its Columbia debut with "I'm Crazy Over Every Girl in France."

## BE READY TUESDAY.

When our country entered the war with Germany, the American Red Cross was wholly unequipped to carry on the work committed to its care. The patriotic people responded to the appeal and the membership increased from 300,000 to 5,000,000. These memberships came in during the summer months and were, for the most part, termed annual memberships.

Now, the Christmas campaign for memberships is upon us and the question naturally arises as to the status of these old memberships and their renewal at this time.

It can be readily seen that if each one who became a member last summer, paid for one year from the time he joined, it would entail an endless amount of bookkeeping and a great outlay of postage and letter writing. The only solution to the difficulty is to make each membership for the calendar year. Then all annual memberships will expire at the same time. In other words, the membership is too enormous to keep an individual account with each one.

To straighten the matter out and get on a business basis, it is requested that the old members renew their membership at this time. It involves very little sacrifice and the same patriotic motive which prompted American people and those who love American institutions, to join then, ought to prompt them to join now. What real difference does it make if a few months are lost out of one's membership from a year? It might mean the loss of a quarter or fifty cents. But that is worth while to get this immense organization on a right basis. The point is to have 15,000,000 members at Christmas time and show the boys at the front and in the camps that the American people are behind them. It is such a small sacrifice that many of us are called upon to make in comparison to the many great sacrifices we shall make before victory comes to our arms, that we should make it with all joy. The Newark school boys and girls, 2200 of them who are above the fifth grade, will go out among the people next Tuesday afternoon to solicit Red Cross memberships. We hope that they will meet with success at every call.

War-savings stamps are the answer of a great democracy to the demand for a democratic form of government security. They have behind them the entire resources of the government and people of the United States.

The war-savings stamp plan is simple, straightforward and certain. The holder of the certificate cannot lose and is certain to gain.

War-savings stamps are the answer of a great democracy to the demand for a democratic form of government security. They have behind them the entire resources of the government and people of the United States.

## NEW THRIFT STAMPS.

Deep gratitude is due the mind that provided a simple method for the American people to save their money. Much of the so-called extravagance of the United States is really due to the lack of the machinery of thrift. It's all very well for those who live in the select quarters of a large city to doubt this statement. With banks about them and a knowledge of banking operations in their own minds they cannot understand why others do not have bank accounts, possessing the money to start them. If they, themselves, had only small amounts, knew little of the routine of banks and lived miles from one, they, too, might be numbered among the delinquents.

The same disadvantages apply to those living in the rural districts. After the Thrift stamp and savings certificate campaign gets into full operation, the bank will come to the door of both palace and hut. There will be nothing involved in the process, either. One simply buys stamps, affixes them to a certificate and lays it away when filled and starts upon the filling of another with more stamps.

The bank is operated by the United States government and it pays 4 per cent compound interest on deposits. If it isn't safe, then nothing on this continent is safe. Beyond question, the American people will soon demonstrate that they are as thrifty as any other in the world. It cannot be otherwise. Already the people of Licking county are taking advantage of this splendid new system of saving money. Stamps may be purchased from the mail-carriers or at the postoffice and soon will be on sale at numerous places. Licking county is expected to buy \$1,100,000 worth of these stamps in 1918.

## GERMAN FAKES.

The American people have never been very strong on green goods games. They will not swallow many of the brands the German spies are putting out. When they find fake letters left around in public places telling of terrible losses undergone by American troops, they laugh at the childishness of such attempts to deceive. The plotters would better emigrate to Russia where the people drink in such stuff.

Also, when you hear these alarming tales about what the government is going to do in commandeering food supplies, or about exhaustion of certain foods, it is best to use some common sense about it.

A great many sound banks can be broken if everyone demands his money at once. Any food supply can be cornered if people all stock up away ahead of their needs. If people will follow the news of real happenings as they appear in the newspapers, they will come out much better than if they listen to the fake yarns started by stealthy enemies.

It is amazing how a man who spends hundreds of dollars on his own comfort, will come swelling downtown after he has given a dollar to make the soldiers comfortable in France.

Profitable, simple and secure—government war-savings stamps are available for every man, woman and child in the country.

## OFF WITH THE OLD.

(Cleveland Plain Dealer.)  
Berlin, Oct. changed its name to Kitchener early in the war. The people of Berlin both proud and loyal, were irked by the inappropriateness of their municipal designation, and the courts relieved them of it.

New Berlin, O., now proposes to shake off the incumbence of its name. The village is located in Stark county. Citizens have appealed to the courts to permit calling the town North Canton. Because of the stigma attached to the name of the German capital, they claim, business in the village is injured. Customers criticize.

A big insurance company has asked for permission to take "Germania" from its legal name. The present title hurts business. There is much in a name when the name happens to suggest barbarism.

This is part of the civilized world's revolt against the crimes of Prussianism. It is part of the price the outlaw nation pays for its sins.

## PAY OF INTERNED ENEMIES.

(Columbus Dispatch.)  
The people who are criticizing the government for paying the interned enemies in this country do not know what they are talking about. At least they do not understand the obligations we are under and the spirit of America in abiding by its obligations.

In accordance with articles of the Hague treaty, which we have agreed to and signed, all enemies interned must be paid the same rate of wages as are paid to our own men or officers in similar grade. Thus if we capture and intern or imprison a German captain in the navy, we must pay him the same wage we pay to one of our own captains in the navy. We must pay the privates the wages we pay our private soldiers. Germany has agreed to do the same thing, as have all countries now at war.

The fact that Germany isn't carrying out her agreements, and paying the interned Americans, does not release us from our obligation; at

least it is no reason why we should not fulfill our agreements. Germany is brutally treating her prisoners of war and her interned enemies, and is actually refusing to feed them. Great Britain and France and the United States are all sending food to their soldiers who have been captured, because Germany refuses to properly feed them. It is the most brutal thing that has ever been done, for a nation holding prisoners to leave it to the country from which they were captured to feed them, but such brutality should not swerve us from our humanitarian course. We must continue to treat the captured and interned Germans mercifully. We must continue to feed them sufficient good food; we must continue to pay them in accordance with our agreements in the Hague treaty. It makes the blood boil to know that Germany is not living up to her agreements and that our unfortunate citizens interned in Germany are not properly fed and paid, but we must let the blood boil if it will and continue a merciful course toward these unfortunate Germans whom we have shut up in prison camps.

## WORK OF THE RIGHT KIND.

(Pittsburgh Gazette Times.)  
If those acts of Christian charity that for years have been a part of many persons' Christmas observance are to be fewer this year because of the greater demand for national relief and welfare work, we should be paying a dear price for our patriotism. Recollections of the Christmas of 1913 ought to be helpful to individual programs for those works of the right hand, done in accordance with Scriptural injunctions. Lack of employment for a great many working people in this district brought suffering and want into homes that had never known the need of charity before, and city authorities and private organizations were busy devising means of relieving hunger and cold. It was then that many began taking an interest in unfortunate families, and the succeeding winters have found these people repeating their experience in helplessness. If they spare any effort this time it will be unfortunate.

Industrial prosperity does not justify the soothing assumption that the need for visiting and helping the poor has passed. Always there are the sick and the injured; always the large families of small children whose suffering is immediate and serious when the wage earner is off duty; always the orphans and the fatherless. Employment being available for everybody who wishes to work, the need this year is not as insistent as in years of business depression, but that should point only to the possibility of meeting war obligations in full and still keeping up customary charities. The cost of living has struck institutions of all kinds so forcibly that the prosperity which comforts other people may work as a hardship to the inmates. These things must be considered by the conscientious.

## GILT-EDGE INVESTMENT.

(Collier's Weekly.)  
In looking over those new War-Savings Certificates, the point to get in mind is this: Uncle Sam is giving the rank and file of us the best chance to save and invest small sums of money that has ever been offered in the whole financial history of the world. You can buy the promise of the strongest treasury on earth to pay you five dollars five years hence (January 1, 1923). You can buy that note any time during this month or next year at a price ranging from \$4.15 to \$4.23. You don't have to figure interest, nor clip coupons, nor worry about the safety of your loan. Behind it are the wealth and the taxing power of the richest country ever known. Your coin is earning 4 per cent interest right along and interest that is reckoned every three months. There may be savings banks that will do that much for you, but we are not aware of any. If it were not for that hundred-dollar limit on each purchase and the thousand-dollar limit on the total that anyone can buy, the big financial fellows would leave precious few of these War-Savings stamps for the rest of us. After all these years of trying to cut out gold-brick schemes which fakers aim at the poor man's pocketbook, the Government is now giving the men of small means a small chance to show whether they know good things when they see it. You can buy these War-Savings Certificates at any post office and at many other places (keep your eyes open for the sign). By giving ten days' notice you will be able to get your five dollars (or more) on or after New Year's Day, 1923, at any post office where you can buy a money order. If you want to cash in sooner, you can do it the same way. But in that case you will get only 3 per cent on your money. Better see the deal through. If you have sound financial sense, you will tuck in some of the stamps (big or little) each day, and the time to begin is now.

MANLESS BANQUETS.  
(Ohio State Journal.)  
The triumph of suffrage in New York has introduced one new feature of human experience and that is the manless banquet. The men have the habit, on occasions, to have banquets at which the women can look on only from the galleries. There is in it an assumed superiority on the part of the men that the women could never near enough to see the men eat. It was so in the olden time, less than a year ago, that men could eat and women could look on. But there has a change arrived, and last Tuesday, at the Biltmore, New York City, the women held a manless banquet, for the men were allowed only in the balcony. It must have been a feast of the soul to look on and see two or three hundred women manipulate a grand dinner.

We will wager it would be a more delightful sight than a womanless banquet, grabbing for the unskinned chicken and the Roquefort cheese. When the women hold their banquet we intend to be in the gallery and watch the grace with which they take every bite. It will be so different from the masculine banquets. Some time, when they teach men how to eat, they may let them in at the first table.

## WHICH IS RIGHT?

(By Prof. C. L. Williams.)  
Every once in a while the question is raised: "Is it right to say 'anybody else's' or 'anybody's else,' 'somebody else's' or 'somebody's else,' and so on?"

In all such matters it is best to be guided by the practice of the best writers and speakers. What is their practice in reference to these forms of expression?

Some well-educated persons prefer to put the sign of the possessive at the end of the substantive rather than at the end of "else." T. B. Macaulay in a letter to his sister, Hannah (July 8, 1831), says that a speech of his in the house of commons was regarded by many "as more like Fox's speaking than anybody's else."

My observation, however, has been that the great majority of the best literary writers prefer the other form. One of the really great masters of English prose, John Ruskin, in his "Fiction, Fair and Foul," has the sentence: "Everybody's fault is somebody else's." Dickens, in "Our Mutual Friend" (chap. 7), has this: "As much ours as anybody else's." George Eliot, in "Adam Bede" (chap. 21), employs the phrase: "Everybody else's donkey." Robert Louis Stevenson, in "Treasure Island" (chap. 32), has the expression, "somebody else's voice," and William Black in his work on Goldsmith, has the words, "everybody else's friend."

If it would seem also that the great majority of our American literary writers favor this form of expression in the course of my reading I have noted the following: "Everybody else's business," Lowell in his essay on Thoreau; "Somebody else's old boot"; Aldrich, in his story, "Quite So"; "Somebody else's mother"; Elizabeth Stuart Phelps, in "Doctor Zay"; "Everyone else's disgust"; Marion Crawford, in "Mr. Isaacs"; "Somebody else's hat"; W. D. Howells, in "The Rise of Silas Lapham"; "Somebody else's attention"; Mark Twain, in his sketch in "Raising Poultry"; "Anyone else's affairs"; Churchill, in "The Crisis"; "Somebody else's shop"; Nicholson, in "The Hoosier Chronicle"; "Everybody else's attention"; Harrison, in "Queed"; "Somebody else's poetry"; Phillips Brooks, in a letter to Dr. Weir Mitchell (Dec. 10, 1892). Perhaps it is most natural to regard "somebody else" as a compound and, as in all such compound expressions, to put the sign of the possessive at the end. We say "father-in-law's," not "father's-in-law." We say "Henry's the eighth's wives," not "Henry's the eighth wives." We say "John, the blacksmith's coat," not "John's the blacksmith coat."

## THE NEW HOPE OF RUSSIA

Shining Shoes Is Not Work.  
Another Solomon has been brought to the fore by Maryland's famous compulsory labor law. A Baltimore magistrate has declared that shining shoes is not work. The principal figure in this nice separation of the sheep from the goats was a boot-black who was fined \$5 for not registering as an idler. The man had been assigned to work on the state road, but preferred the more artistic occupation of adding lustre to the prosaic world. If a man may shine his own shoes during the war, as the magistrate contends, he may also cut his own hair, press his own trousers and mix his own drinks. The magistrate is working for the full development of much needed man power, but there is a fear that if he continues to cut the corners so closely a goodly portion of Baltimore will be headed for the state road.—Philadelphia Telegraph.

The Silent House.  
Colonel House is now reported to be ready to return to the United States, having accomplished his mission. In doing it he gave out just one interview, we believe, and that but a few score words. One of the best things about the Colonel is that he believes in doing things rather than talking about them. That is an example some of our Allies might follow with profit to themselves and the general cause.—Baltimore News.

Pointed Observations  
Austria may care little for the news from Washington, but it means a lot to Italy.—Boston Herald.

General Byng can't hold that silent war belief there's anybody who can. That fellow's a scrapper.—Charleston News and Courier.

Of a good deal more interest than one more air raid on London is the flight of more than 100 British aviators over the Alps to help free Italy.—Springfield Republican.

Austria's vassalage to the Kaiser has cost her \$9,000,000,000. But the cost in lowered self-respect and self-esteem may not be reckoned.—Milwaukee Journal.

The Watch on the Rhine seems to have stopped running.—Milwaukee Journal.

Russia thought she was going somewhere, but now meets herself coming back.—Atlanta Constitution.

The net results of that armistice may be that the Russian front will be deserted by the soldiers who don't want to fight, and will be occupied by those who do. This might prove a clear gain for the allies.—Portland Oregonian.

Complaints are growing that German agents have too much leeway in this country. The fact is they haven't been given enough rope.—Brooklyn Eagle.

The Kaiser and Emperor Charles are all the time talking about how close they are to their ally, Turkey. The proposal for polygamy in Germany after the war suggests a desire in some quarters to get even closer.—Chicago Herald.

As we gather it, the Maximalists represent the ultimate in lunacy, while the Minimalists are only half-crazy.—Chicago Tribune.

The Kaiser's Boy Scouts who shot down hungry women have a queer idea about that one good deed a day.—Washington Post.

How much longer will the enemy hold out? That depends largely on whether or not any more mistakes

## THRIFT STAMPS TO BE PLACED ON SALE BY PENNSYLVANIA

At the request of the government, and in order to assist in the raising of funds for carrying on the war, the Pennsylvania railroad has completed arrangements for placing on sale the new war savings stamps and thrift stamps at ticket offices and in its shops, freight stations and in the various departments on the lines east and west of Pittsburgh.

Every ticket agent on the entire system, except where located in the immediate vicinity of a postoffice, will have the stamps for sale, and will keep on hand, at all times, a sufficient supply to accommodate investors. It was not thought necessary to do this where postoffices are near at hand, as the government will sell the stamps direct at those points.

As in the case of the campaign for the two Liberty loans, special efforts will be made to encourage investment in the savings and thrift stamps, on the part of employees of the system. It having been found impracticable to place the stamps on sale directly in the pay cars, arrangements will be made wherever possible, to have them on sale near the pay cars when employees are being paid.

At all ticket offices and other places where the stamps may be obtained, cards will be displayed containing the words "war savings stamp sold here."

War savings stamps are in reality \$5.00 bonds of the United States government maturing in five years. They will be offered for sale in December, 1917, and January, 1918, at \$4.12 each, and will be redeemed at their full face value of \$5.00 on Jan. 1, 1923. If held to maturity, they will net the investor 4 percent. Interest compounded quarterly. The stamp increases in cost one cent monthly, beginning with February 1, 1918.

The thrift stamps are of the value of 25 cents each. They bear no interest but when 16 of them have been acquired they may be exchanged for a \$5 War Savings Stamp, by paying the difference between \$4 and the price of the War Savings Stamp in the month the exchange is made.

## BOWSER TRAINING FOR THE IRSLINGER WRESTLING MATCH

What promises to be another splendid wrestling exhibition will be staged at the Auditorium theatre Thursday evening, Dec. 20, when Paul Bowser, middle-weight champion of America, meets Henry Irslinger of Atlantic City, who established a reputation several years ago as the champion middle-weight wrestler of Europe. The match promises to be one of the best, if not the best, ever held in the city, and local mat fans are anxiously awaiting the appearance of the two gladiators.

Bowser has started training for the event and is taking on all his pupils, both afternoon and evening. The heavy snow has made it hard for road work but the local boy, undaunted, gets out early and battles with the elements. It's pretty hard work hiking along at a dog trot over slippery roads, but Bowser has the metal and endurance and he realizes that it is necessary as the belt which he holds is at stake, and he will put forth every effort to retain it.

Irslinger has the reputation of having thrown some of the best men in the country, including Joe Turner, former champion, and a number of other aspirants. He is in the best of physical condition of his life and will give Bowser a battle that will cause the fans to rise to their feet.

The preliminaries are now in the process of arrangement and will be announced later. Suffice to say that they will include some of the best boys in the city. Bowser has a number of clever youngsters who have never been seen in public and it is possible that he will match one or two of them with other boys equally as clever.

**A Fair Verdict.**  
Judge, said Mrs. Staven to the magistrate who had recently come to board with her. I'm particularly anxious to have you try this chicken soup.

I have tried it, replied the magistrate, and my decision is that the chicken has proved an alibi.—Puck.

Marriage is supposed to be an eye-opener, and yet many a married man is blind to his own faults.

Abe Martin

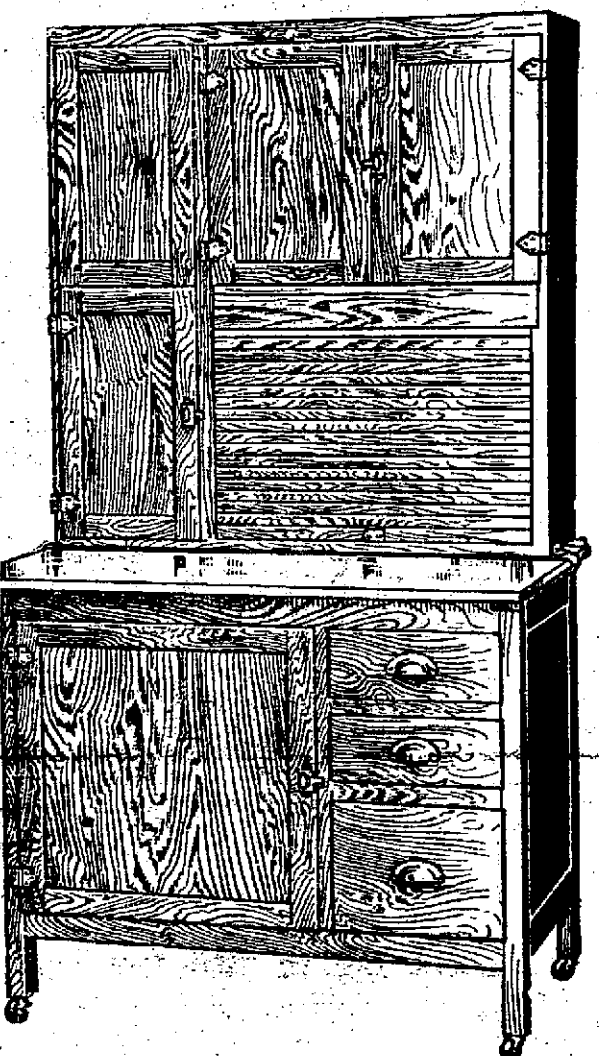

## A Real Santa Claus in Toyland

Every afternoon and Saturday evening. Bring the children to see him. Below we quote a few of Toyland's many values—

25c Value Doll Rockers.....19c  
75c Value Child's White Rockers 49c  
\$1.25 Value Blackboards.....98c  
\$1.50 Value U-Boat.....98c  
\$1.25 Value Coaster Sled.....98c  
\$2.50 Value Desk and Chair...\$1.98

Also a complete department of all kind of toys for boys and girls.

## Kitchen Cabinet

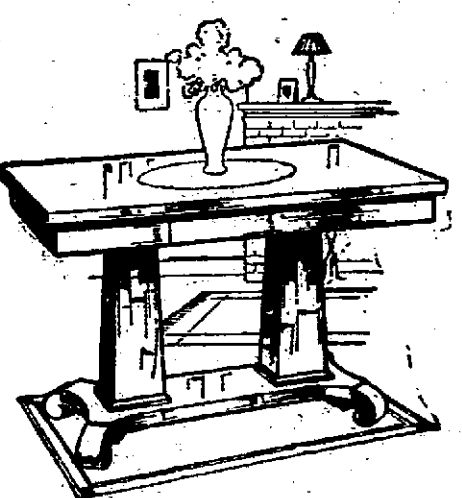

A very useful present that will be appreciated for years to come. The Dutch Kitchenet is built like fine furniture but costs no more than the ordinary. Cabinet as pictured is priced at

**\$25.00**

Sold On Easy Payment Terms.

## Library Tables

At Stewart Brothers & Alward Co. you will find a large assortment. All styles and finishes. Table as pictured is priced at—

**\$15 75**

Oak or Mahogany.

## WONDERFUL VALUES IN PIANO LAMPS

It will be of financial interest to you to see our assortment before making your purchase. We have them as low as—

**\$9.98**

# GIFT SUGGESTIONS OF A PRACTICAL NATURE

**I**N RECENT YEARS the custom of giving practical gifts that will endure as a lasting reminder of the donor's thoughtfulness has grown to such an extent that national organizations have been formed—every member pledging himself to give practical gifts at Christmas time and surely no gift could be more practical than furniture. Not only will it endure, but furniture gives pleasure to everyone. The gift of furniture will make the home brighter and cheerier not only this Christmas but many Christmases to come.

Here you will find hundreds of appropriate gifts for everyone—from the tiny toy for baby to a beautiful new Dining-room Suite or Bedroom Suite for dad and mother—and best of all, you needn't pay cash for your gifts, you can complete paying for them after the financial strain of the holiday season is over.

## A CLOCK

THE IDEAL GIFT

We have a large assortment of Hall Clocks, finished Early English, fumed and mahogany. They range in price

**\$40 to \$4.75**

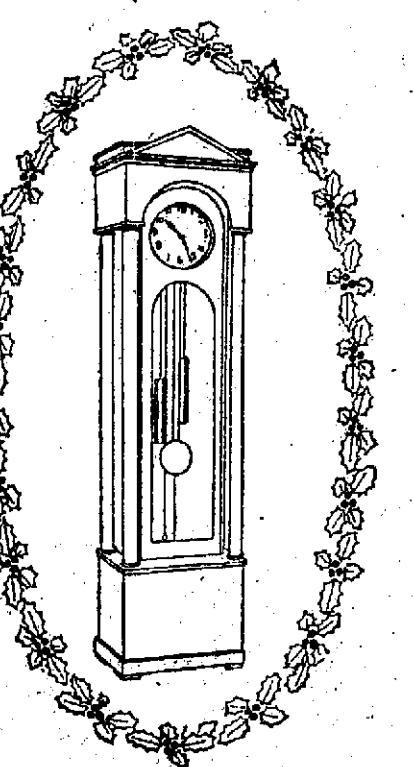

A complete assortment of Mantel Clocks, all styles and finishes,

**\$12 to \$6**

Alarm Clocks are priced from

**\$3 to 98c**

All Clocks are guaranteed time keepers.

## Mr. Edison:-

And His Wonderful Invention  
The Phonograph  
With a Soul

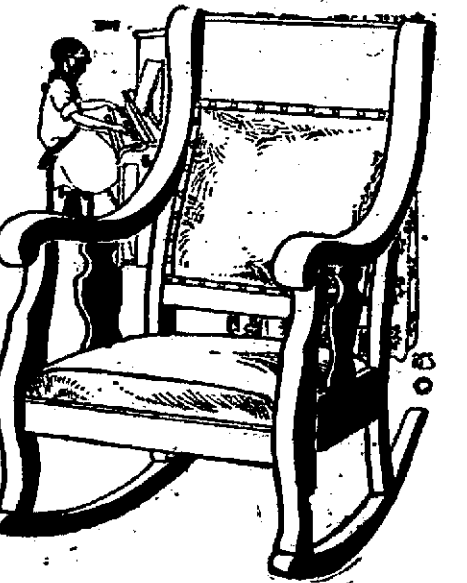

Don't get the idea that The New Edison is a talking machine, for it is not and is not manufactured in a talking machine factory. It is a laboratory product, manufactured in the world's greatest laboratories. Music's recreation is a new art, distinguished in every point from the mere mechanical and only approximate reproduction of musical sounds which is characteristic of the ordinary talking machine. Come in let us demonstrate to you what recreated music is. Any one can afford a New Edison this year, at least you owe it to yourself and family to visit Stewart Bros. Alward Co. and have us play your favorite selection of re-created music.

STYLE AND COMFORT  
COMBINED IN THIS

## Rocker

**\$14.75**

This Rocker at this price is the biggest Xmas value we have ever offered. You will not find its equal elsewhere. The upholstering is real leather. Your choice of mahogany or oak finishes.

## A Few of the Many Articles In Furniture Reduced 15 to 25%

\$14.50 Tapestry Rocker.....\$12.00  
\$15.00 Leather Rocker.....\$12.75  
\$22.50 Mahogany Chiffoniers...\$19.75

THE ARCADE & UNION BLOCK, NEWARK, N.J.

Mahogany Candlesticks, wonderful values—  
**25c, 39c, 49c, 98c EACH**

If the average girl only had as much backbone as she has wish bone she'd be purty safe. A feller with long whiskers hates t' carry a baby.

## A WAR WORK ORGANIZATION STARTED BY LEADING NEWARK MEN TO COVER ENTIRE COUNTY

At a meeting of fifty-one representative men in the headquarters of the Newark Chamber of Commerce last night steps were taken to form a county-wide "war work" organization for the period of the war.

Mr. Edwin C. Wright, cashier of the First National bank, was unanimously chosen chairman of the organization and Messrs. W. H. Mazy, A. R. Lindorf, John J. Carroll, Roderic Jones and C. H. Davis were elected members of the executive committee. Five men representing the twenty-six township in Licking county will be chosen later as members of the executive committee. Mr. G. G. Barber was unanimously elected secretary of the organization.

On November 22 a committee of which Roderic Jones was chairman, was appointed by the executive committee of the Red Cross and the Y. M. C. A. war work campaign, to prepare a plan upon which to build

E. C. WRIGHT

a permanent county organization for war work. Pursuant to that order, several meetings were held by the committee with the result that the following report was submitted at last night's meeting:

First—This organization shall be known as "The War Work Committee of Licking county."

Second—The present executive committee of the Y. M. C. A. "War Work" organization, shall list 50 men whose names shall be assigned to the various members of said committees, with the understanding that each committeeman shall be responsible for the presence of the men named on his list at a meeting, the date of which shall be set by said committee.

Third—At the above mentioned meeting (comprising 56 men) there shall be elected a chairman and five members to constitute the city representation of a permanent executive committee for the year 1918.

Fourth—Division leaders for the city shall be chosen by these six men, and jointly with them shall choose team captains, who in turn shall individually pledge their team workers, thereby roughly completing the work of organization in the city.

Fifth—Provision for organizing the country districts shall proceed after the following manner: The newly elected executive committee shall be enlarged by the addition of five members chosen from the townships, thus creating a permanent county executive committee numbering eleven members, including the chairman, four of whom present at any meeting shall constitute a quorum. The official meeting place for the executive committee shall be the Chamber of Commerce, Newark, O. The manner and time for the selection of these five members of the executive committee to be chosen from the townships, will be indicated further on in this recommendation.

Sixth—The newly elected general chairman and five city members of the executive committee, shall then carefully select an organization committee composed of men who (working in teams of two each) shall secure a qualified leader in each of the townships of the county, who will act for the year 1918 as chairman of his township organization.

Seventh—It is recommended by your committee, that said organization committee be composed of a small group of men (not exceeding ten) who shall be chosen because of their special fitness for the work or personal and inspirational instruction, their part being, in your committee's judgment, not only absolutely necessary, but the most difficult and important part of the work.

Eighth—At this stage of the organization the township chairmen shall be assembled at a meeting, the date of which is to be set by the committee and at which shall also be present the general chairman, the five city representatives of the executive committee, the division chairmen and the team captains. This meeting shall be held for the purpose of perfecting such details of organization as may seem necessary, and for imparting a common perspective and a mutual enthusiasm to all members present.

Ninth—At the meeting just specified, the Township Chairmen shall elect five members to the executive committee, thereby completing the same.

Tenth—Each of the Township chairmen shall select at least one assistant from each school district in his township, for whose attendance at a meeting in his township he shall be responsible.

Eleventh—These last mentioned meetings shall be held in the home of the township chairmen, if possible, and shall be met in each instance by a team from the organization committee, and thoroughly sold

on the general work of the organization.

Telfth—It is urged by your committee that this work shall be prosecuted with all possible continuity and dispatch, in order that the next important demand shall find us thoroughly organized for "War Work."

The committee's plan was endorsed by the Red Cross and the Y. M. C. A. war fund executive committees and after thorough discussion led by C. H. Davis, W. W. Gard, Frank L. Rogers, Andrew S. Mitchell, Ray Martin, John C. Krier, W. H. Mazy, Roderic Jones, Wilson Hawkins, Rev. C. H. Stull, Dr. C. L. Wyeth, and others, the committee's report was unanimously adopted after which the election of Chairman Wright and the five city committeemen above named took place.

When the organization which was started last night is completed, every precinct of the city and every school district in the county will be represented. It is estimated that not less than 500 people will be drafted into service for the great work to be done by those who stay at home during the war. The first important work of the organization is to make the people of the community realize that we are in a real war, that service and sacrifice are necessary.

Chairman Wright asked C. H. Spencer, recently appointed by the government as county chairman of the national war savings organization, to explain the details of the government's new two billion dollar thrift stamp and war savings certificate campaign. He announced that Ohio's share of the \$2,000,000,000 issue is \$106,000,000 and of this sum Licking county has been apportioned \$1,100,000 for the year 1918. The plan was explained in detail. Very soon the thrift stamps and war savings certificates which are now offered by the mail carriers and also at the postoffice at the Newark Trust company, at the Home Building association, at Stewart Brothers & Alward company's store, at the Newark Telephone Exchange at the American-Tribune and Advocate offices, will be offered by scores if not hundreds of business places in Newark and throughout the county. The thrift stamps are 25 cents each, the 75 war savings certificates \$4.12 up to January 31st. The February price will be \$4.18, the cost increasing one cent each month. Sixteen thrift stamps plus 12 cents may be exchanged for a \$5 interest-bearing certificate up to Feb. 1. The certificates may be registered without cost and may be cashed at the option of the purchaser, but unless they are held until maturity, (1923) they will draw only 3 per cent interest. If held to 1923, they will draw 4 per cent interest, compounded quarterly. The government's plan offers a wonderful opportunity for thrift. It presents a simple but practical way of aiding the government's war chest. It provides an easy way for every man, woman and child in America to loan money to the government at a good rate of interest. The certificates are tax free but nobody is allowed to own more than \$1000 worth of them. The stamps were put on sale for the first time only a few days ago, but already hundreds of Newark people are buying them and are starting to save in a systematic way for future purchase of stamps.

## MOTHER'S HAPPY THOUGHT WORKED OUT PERFECTLY

Fretful, Sleepless Child Quickly  
Soothed by Nerv-Worth.

The following Nerv-Worth story told by Druggist E. C. Myers of Washington, Pa., who has sold several thousand bottles of this famous family tonic during the past year, is striking proof of the fact that Nerv-Worth is a royal friend of ailing little folks:

"I have known it (Nerv-Worth) being given to young babies for colic and other stomach and bowel troubles with perfect results. To cite an instance:

"A baby, 18 months old, would sleep during the day and keep awake during the night. This continued for some time and the parents were nearly exhausted. It also caused considerable trouble with its stomach and bowels and was cross most of the time. The family physician was appealed to but without any satisfactory result. One night the mother gave it a dose of Nerv-Worth and in a few minutes baby was asleep and slept well the entire night. This was repeated each night and in a few nights baby came to know the Nerv-Worth bottle, would take it in its arms after getting the dose, and go to sleep. The child improved in every way. Slept better, had no digestive or bowel trouble and became very happy and contented. Its parents are very grateful for Nerv-Worth."

T. J. Evans, druggist, sells Nerv-Worth in Newark. Your dollar back if this tonic does not help YOUR child or you. 12-14-17

## VOLUNTEER SYSTEM NOW CLOSED TO ALL DRAFT REGISTRANTS

Volunteering in the army reached a new high daily mark in Columbus yesterday, when 113 Columbus men, largely draft subjects, enlisted before the doors of the Columbus recruiting station closed at 3 p. m. As far as could be learned, none applied too late.

The volunteer system is now closed to draft registrants, according to Washington instructions.

Since announcement, several weeks ago, that draft subjects would not be permitted to enlist after December 15, Columbus station has been practically swamped daily with recruits, the majority of whom are registering for the draft. The total here for December to date is 568 men. This figure, as well as yesterday's number of enlistments, has no precedent in the Columbus station, and similar reports come from other stations over the country.

Men enlisting here come from Columbus, Newark and central Ohio. The thousands of recruits arriving at the Columbus barracks in a constant stream come from several states.

It was said yesterday some of the recruits taken into the army lately may be sent to Camp Sherman for preliminary training.

**LAST CALL TO CHRISTMAS SHOPPERS**

This is our last suggestion to the people of Newark regarding Christmas shopping. It is too late now to start doing your shopping early in the season, but we can still urge upon you the desirability of shopping early next week and early in the day.

The morning hours are the best hours for shopping. The clerks are rested up, the merchandise has been straightened up over night and in much better condition to be shown, and the stores are not so crowded. You have a better chance to get what you want.

Don't wait until the last of next week, if you do you are sure to be disappointed. The article you want won't be there. Some one else will have it—and that won't help you.

So "Shop Early Next Week—and In the Morning."

Publicity Bureau Newark Chamber of Commerce.

**NEW RIFLE RANGE NEAR COMPLETION AT CAMP SHERMAN**

(ASSOCIATED PRESS TELEGRAM)

Camp Sherman, Chillicothe, O., Dec. 14.—Camp Sherman's new rifle range near completion, east of Mt. Logan, will get its baptism of bullets next week, if the weatherman does his bit before the first of the week. It was said at headquarters today that it will take five days' work to complete the range so that it can be used by the select. The 332d regiment is the only unit in camp which has completed its target practice. Picked details from all the other units have completed the course by reason of having been sent early to the range at Camp Perry. Since their return they have been detailed as instructors for their regiments.

Lieutenant Colonel A. J. MacNab, better known over the country as "Sandy" MacNab, and reputed to be the best shot in the army, has been designated divisional instructor of rifle practice and will be in charge of all the work on the range. He has been instructing the 331st infantry company this week in elementary and general use of the rifle. Most of the rifles in camp are Enfields, which differ in some details of the Kras-Jorgensons and Springfield, long in use in the United States army. According to present plans the 331st will be followed on the range by the 330th.

The ranges are built in three sections, parallel to each other, varying from 200 to 1,000 yards. The men will shoot from standing, kneeling, and prone positions.

With the approach of the holidays, the select anxiously are looking forward to the next visit of the paymaster. It is said that the vast numbers of transfers of draftees to other units and to other camps has retarded the work of paying the men.

Lack of money has not stopped the business the war-risk insurance officers have been doing. The select has taken so kindly to the government's offer to insure themselves that Lieutenant Peebles, in charge of the work, has been swamped. The campaign closes February 15. He said today that Company C of the 332d regiment had the best record of the 249 men in the unit all but six have subscribed for \$10,000 worth of insurance.

Forty-five non-commissioned officers in the engineer and infantry regiments have been named as the best in their units and graded accordingly in a memorandum issued at division headquarters yesterday, following the completion of the course in bayonet instruction under English veterans here.

Sergeants Greenburg of the machine-gun company, 330th infantry, Rude of Company K, 330th infantry, and Bosworth of the headquarters company, 329th infantry, are named by Captain Owen in charge of instruction as the most proficient among the 210 who reported for instruction.

While Sam Brown belts have disappeared as if by magic, following the order from the war department, forbidding their being worn, officers here are putting them away with the expectation of using them again before many months. The army regulations do not provide for them and since they are not named as part of officers' equipment the order was issued which resulted in their being discarded. The order applies only to officers in service in this country, however, and Camp Sherman officers figure it will not be many months before they are ordered to service over seas and when that time comes they can resume their wear.

The machine-gun company of the 332d infantry, just back from Camp Perry, is under quarantine, although the order isolating the company does not state the reason for quarantine. While the base hospital records show but little variation from normal in the matter of sickness among the select, every precaution is being taken to prevent contagious diseases from getting too prevalent. To that end Colonel Kenzie W. Walker of the 330th infantry, has ordered that all mascots in the companies of his regiment be gotten rid of. Parrots, doves, cats, a cub bear, and even a sparrow-hawk are numbered among the mascot personnel and all will have to find homes elsewhere as a result of the order.

**MURDERER SENTENCED.**  
Toledo, Dec. 14.—Tomasso D. D'Agostino was sentenced yesterday to life imprisonment for the murder of James Farrey, fruit dealer, last Oct. 10. The murder was the result of a Black Hand plot.

**INJURED AT CROSSING.**  
Hamilton, Dec. 14.—Albert Creach, wife and 13-month-old daughter injured when passenger train struck them at a street crossing.

**TO ALL REGISTRANTS**

When a drafted man goes to a lawyer to have his questionnaire answered, he should be prepared to furnish the following information:

1.—The amount of taxes he has paid during the past year.

2.—If he owns his own home—stead and there is a mortgage on it, it will be necessary to state the amount due on that mortgage and should be prepared to furnish that information.

3.—If drafted man has bought a home on contract it will be necessary to state the amount due upon that contract.

Be prepared to give this information. JAS. R. FITZGIBBON, Chairman Legal Advisory Board.

CARL NORPELL, EDWARD KIBLER, JR., 12-13-31

**ROBBERS SECURED****\$47,000 CASH FROM****LA GRANGE BANK**

(ASSOCIATED PRESS TELEGRAM)

Chicago, Dec. 14.—Two hundred pounds of money, totalling \$47,000, was carried off by the five men who yesterday robbed the La Grange State bank at La Grange, a western suburb, it became known today, after an indemnity insurance company had checked up the bank's cash.

It was at first believed that only \$20,000 was obtained by the robbers, but the later inspection revealed that they took 140 pounds of gold and currency and sixty pounds of silver.

The robbery took place at noon, but a heavy snow storm obscured the robbers' work in the bank from people on the street and they escaped in an automobile.

**HAS CONFIDENCE IN AMERICAN POWER**

With the American Army in France, Dec. 13.—(By The Associated Press.) A number of well known correspondents of important French newspapers have visited the American troops and followed the lines of communication from the sea to the advanced camps. After interviewing General Pershing, who expressed to them his unalterable confidence in an allied victory, the journalists summarized in the following statement:

"I have come to a striking realization of American power. We have the fullest confidence in the aid which America's army will render us and we are more than ever convinced of victory. We have been struck particularly by the brotherhood in arms of Americans and Frenchmen and nothing rejoices us more than the vigor, high spirits and enthusiasm of our allies from over seas."

The party made a long visit to a camp of former national guardsmen where they partook of the soldiers' mess. They also visited and had long talks with the troops returned from the trenches, especially those who were wounded.

To strengthen mutual sympathies arrangements have been perfected by which the British Y. M. C. A. in France is to send influential and well known British public men such as Viscount Bryce to speak in the American Y. M. C. A. huts. The American Y. M. C. A. in turn will provide well known American lecturers to speak in the British huts. The interchange of speakers will begin about the first of the year.

**MOTOR TRUCK SERVICE.**  
Zanesville, Dec. 14.—An incorporation of a stock company for the purpose of establishing a transportation service between Zanesville and Wheeling by motor truck as soon as the East pike improvement is completed and the eventual extension of the service to Columbus, is contemplated by business men here.

**GERMAN CLUB DISBANDED.**  
Canton, Dec. 14.—The German club formed in a local high school is out of existence. Superintendent John K. Baxter of the schools notified the board of education he had ordered the club to disband. The forming of the club a few weeks ago caused much comment throughout the county.

## MAKE GOWNS IN MIDST OF WAR

Paris Dressmaking Industry Is  
Not Hampered.

## SPAIN IS BEST CUSTOMER

Takes the Place of the United States  
as the Most Lavish Buyer of Dresses  
—Rabbit Fur, Cunningly Dyed,  
Keeps Up Rich Appearance in Fas-  
hions—Norway Heavy Buyer.

The great war does not seem to have worked the same hardships on the Paris dressmaking trade that it has on other branches of French industry. The openings at the big couturiers go merrily on, and though American buyers have long since flown back to the States representatives of European houses of neutral lands are much to the fore.

The New York Sun correspondent had an opportunity to verify this on a second visit to one of the most famous dressmaking establishments in the Place Vendôme.

The Revue des Modeles was scheduled for three o'clock, and at that hour the soft tinted, silk hung salon was filled with a score or more of professional purchasers. There was about them a striking similarity of type—all save three being dark of skin and black of hair and eye. Consequently the only three blonds in the room stood out in startling relief.

### Lead in Buying Shifts.

As the bored, supercilious-looking mannequins, wearing the season's latest creations, filed by Mme. Yvonne, the premiere, answered the New York Sun correspondent's interested inquiries.

"No, I can't say that the war has hurt our trade to any great extent; rather are we doing a bigger business this year than ever before. But there is a distinct change in the nationality of our customers. Whereas in former years our biggest sales were in America, that country, though still among our best clients, no longer holds the palm for lavish buying. You may have noticed that most of the buyers here are of the Latin type. In fact nine-tenths of them are Spanish, for Spain is the country with which at present we are doing the heaviest trade.

"In the old days the Spanish dress market was a negligible quantity. A few of their buyers came to our openings, saw our models and gingerly chose one, and sometimes two, but never more. They were most conservative and economical, haggled over prices, and commissions, and even when we had made for them what we considered easy terms we were never sure we had made a sale. The buyer would hesitate, ask for time to consider, and usually after a week or ten days give us a negligently order. Now all that is changed.

"Spain has never been more prosperous than since the war and her people spend money in lavish fashion. All our most flamboyant and elaborate models, those with the richest materials and brightest colors, find a market in Spain, and these buyers whom you see here today will probably order twenty or thirty of our most expensive frocks. We also have a huge private trade with Spain. The ladies of the court do not come to Paris as much as they did in former days. We send them colored photographs and drawings of our models, from which they select their frocks as their fancy dictates. We keep their exact measurements here, so that it is no trouble for us to insure a perfect fit. The dresses are shipped by express, opened at the customs on the frontier and forwarded to their destination without further formality."

### Norway Spending Money.

In answer to an inquiring glance in the direction of the three blond buyers sent together in one corner of the room:

"No, they are not from Madrid," explained Mme. Yvonne, "but from Christiania. It will probably surprise you to hear that Norway ranks next in importance to the Spanish trade. Most people are under the impression that Sweden contains the greatest number of war profiteers, but her sister kingdom far exceeds her in the spending of money for luxuries. Much of our Norwegian trade is a private one and, as with Spain, is done through the colored photographs and customers' measurements. Only this time we ship via England.

During this conversation the passing review of the models went on without a lull. The Sun correspondent noticed that street and afternoon frocks and even evening gowns were lavishly trimmed with fur—beaver, sealskin, blue fox, kolinsky. On expressing surprise that, despite the war, such a variety of foreign pelts were still finding their way into the Paris markets Mme. Yvonne smiled:

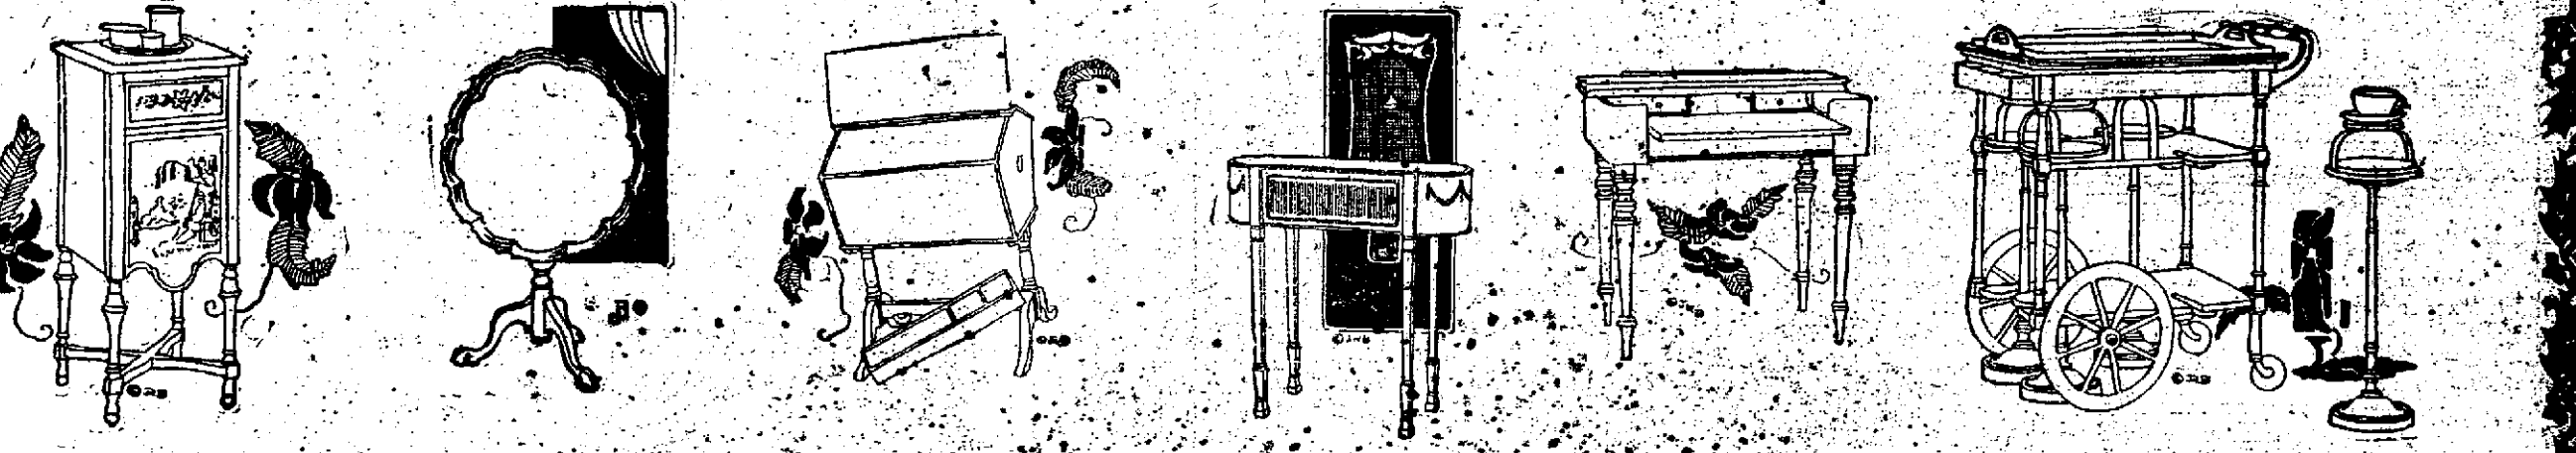

"You have just paid our French workmen a high compliment. These aristocratic looking furs that you admire are all pelicans masquerading under high sounding names. Every one of them comes from the same humble source, the common or garden rabbit, which is being raised in enormous quantities to satisfy the desire of the mandate for fur trimming. As you see, the Germans have not quite the monopoly on dye-stuffs, since we are still able to successfully disguise our modest lapin in such attractive form."

You never can tell. Many a man gives away his friends who hasn't any to spare.

# This is the ONE Christmas of all Christmases for practical, sensible gifts LIVE SOMETHING IN FURNITURE

## Conserve The Nation

The One Christmas when we must spend our money wisely in making useful, not useless gifts. The One Christmas when every dollar spent must be spent so that it will do some permanent good. The One Christmas, particularly, when our thoughts must turn to our homes because our homes conserve the nation. ## FRANCIS MACMILLEN IS CALLED TO FRONT

Columbus, Dec. 14.—Francis MacMillen, noted Ohio violinist, who enlisted as an interpreter in the field service of the army recently, has been called for service abroad earlier than he expected, and will sail within a few days from an Atlantic port. When he enlisted it was with the belief that he would not be called before next April and he made concert engagements accordingly. To meet the government's orders he must cancel forty dates.

MacMillen played at Marion, O., last night and at Huntington, W. Va.,

tonight. He will go direct from the later place east.

### 25 Years Ago

(From Advocate, Dec. 14, 1892.)

Charles Bieher has opened a new restaurant on West Main street.

Mr. Ignatius Seiler, Granville street has in his possession quite an old relic, a clock of cherry wood which stands about two feet high, it was the property of Joseph Williams and is over one hundred years old.

Charles H. Follett, T. O. Donovan and Frank G. Warden of this city have been elected as directors of the Taylor Coal and Mining company.

The ownership of the coal yards in the East End run until yesterday by M. E. Moore has changed hands

and is now under the supervision of Mr. Charles Lee.

A surprise party was tendered Miss Mabel Abbott at her home on West Main street last evening.

Thomas E. Powell will give an address at a banquet to be held at the Hotel Granville by the Democrats of that place.

### 15 YEARS AGO.

(From Advocate, Dec. 14, 1902.)

Mrs. M. Schonberg and daughters, Mollie and Sadie and son Saul have returned from Cleveland, where they attended the Schwartz-Richman wedding. Misses Mollie and Sadie acting as bridesmaids.

Born to Mr. and Mrs. C. Hardesty of Grand avenue, a son, Dec. 14.

Geo. C. Wilson, the well known contractor died Sunday night very suddenly at his home.

Lamb and Palmers, 19 West Main street, are having a special sale, the following prices are quoted: 1 quart beans 10c, 15 bars of laundry soap 25c, 1 pound coffee 10c, and 1 pound of crackers 5c.

Richard Williams died at his home on High street Saturday evening after an illness of several weeks.

The stockholders of the Newark Independent Telephone company last night elected the following directors: John C. Brennan, Benj. Franklin, Jas. K. Hamell, Edward Kibler, Harry Swisher and C. H. Spencer.

How do you like my new fur coat? Fine. It cost a couple of thousand. Just fancy.

And to think that some poor animal was skinned to supply it.

Er—speaking of your husband?—Florida Times-Union.

It's one thing to shoulder a responsibility, but quite another matter to get away with it.

## Sale Postponed

On account of the extreme cold and impassible roads on Monday, December 10, 1917, I was compelled to postpone the sale of my

## Entire Dairy Herd of Cattle Until Tuesday, December 18, 1917

Sale to start at 12:30, sharp (standard time), on my farm, five miles east of Newark, on the Hanover pike. Interurban cars stop at Clay Lick, O., in sight of the farm.

The herd consists of 15 head of high-grade Holstein and Jersey Cows, in milk; age from 3 to 8 years old. There are several 40-lb. cows in this herd and 11 head of high-grade Holstein and Jersey heifers, ages from

4 months to 2 years old. Some of them are close springers. These heifers are bred for the dairy business. This is your opportunity to secure a high-grade cow, that has been tested with the scales and Babcock-tester, at your own price.

## The Entire Heard Will be Offered For Sale Without Reserve

TERMS OF SALE—A credit of six months' time, secured by a bankable note, or a discount of 3 per cent for cash.

J. P. LAMB.

COL. W. C. SEWARD, Auctioneer.

C. L. V. HOLTZ, Clerk.

## A Perpetual War of Germs

In every human body there is continual strife between the forces of health and disease, while headaches, nervousness and frequent colds mean weakness and forerun sickness.

In changing seasons your system needs the oil-food in

## SCOTT'S EMULSION

to increase the red corpuscles of the blood and create that resistive power which thwarts colds, tonsillitis, throat troubles and rheumatism.

Scott's is high-powered medicinal-food without drugs or alcohol. One bottle now may prevent a sickness.

The imported Norwegian cod liver oil used in Scott's Emulsion is now refined in our own American laboratories which guarantees it free from impurities. Scott & Bowace, Bloomfield, N. J.

## MARY PICKFORD IN NEW PLAY

Aircraft is releasing Mary Pickford's latest play, in which the famous star plays the part of Sara Crewe in "The Little Princess," from the book by Frances Hodgson Burnett. While a pampered pupil in a fashionable boarding school Sara is plunged into poverty by the death of her father, and she becomes a scullery maid in the same establishment. She finds comfort in the companionship of Becky, the little slave, and the two small the tantalizing odors of Christmas cooking—of which they are not to partake. Sara tells Becky that she hasn't eaten well for so long she just knows her insides must be full of hollows!

**BUILD OUR TOWN—BUY IN NEWARK**

## FRANK HEILER DIES WHILE ENROUTE TO ALBUQUERQUE, N. M.

The news reached here Thursday of the death of Frank J. Heiler, which occurred enroute to Albuquerque, New Mexico, where he had gone three weeks ago for his health, which has been failing during the past year. His wife was at his bedside when death came.

Frank J. Heiler was born in Newark, June 14, 1873, where he resided until 10 years ago when with his family he moved to Columbus where they now reside.

On April 7, 1898, he was united in marriage to Emma Dase, to which union were born two children, one dying in infancy, the other Harold P. of the home. The deceased was a faithful member of St. John's Evangelical church of Columbus, and was a member of Roland Lodge, 305 K. of P. and the Red Men of Newark.

He was the eldest son of Mrs. Eliza Heiler of West Church street and was formerly a tailor of this city. He is survived by his wife, one son, one brother Leo L. Heiler, and three sisters, Mrs. William Clugston, Mrs. F. G. Speer and Mrs. Harry Lipscomb all of Newark.

The remains are expected to arrive in Newark Saturday but no arrangements have been made for the funeral.

## ECONOMIES WILL BE RECOMMENDED ALONG ALL LINES

(Associated Press Telegram)

Washington, Dec. 14. — Left-handed plows and unusual shades of paint have been added to the "little luxuries" which the public must forego next year because of the war. Having effected economies in men's clothing and even achieved a reformation in women's styles, the commercial economy board of the Council of National Defense announced today that attention was being paid to articles of industrial use with a view to eliminating as many as can be spared.

For this reason, Chairman A. W. Shaw said, you will not be able next year to purchase a left-handed plow, unless it is an old model. At the suggestion of the board implement manufacturers have decided the right-handed plow can serve the rural communities and a greater saving in manufacturing facilities be effected.

Color schemes in paint will be limited to some forty shades instead of 100 as heretofore. Size of paint containers too are being standardized to reduce the number of different quantities which must be carried in stock.

Just what is coming next is not being told by the board, though it is known they are conferring with manufacturers using leather, silk and many other commodities of general war. Restrictions on the styles of women's boots in England have been noted with interest here, as forecasting similar steps, long advocated by leather experts of the Council of National Defense to reduce the waste of hides in making extravagant shoes for American women.

## FUNERAL OF LATE JOSEPH EBNER TO TAKE PLACE HERE

A change in plans have been made and the body of Joseph Ebner, B. & O. brakeman, who died at the Protestant Hospital in Columbus Wednesday night will be brought to his home in 205 South Fifth street this city, and flowers will be sent there instead of to Columbus.

The funeral services will be held on Monday morning at St. Francis de Sales church of which he was a member.

## NEW FOOD CARD URGES LESS MEAT, SUGAR AND WHEAT

Washington, Dec. 14.—A sugar ration of three pounds for each person a month, a porkless day and one wheatless and meatless meal a day will be recommended to households in a new kitchen card soon to be put out by the food administration. Observance of wheatless and meatless meals will be asked in addition to the wheatless and meatless days called for now.

The normal consumption of sugar in the United States has been more than seven pounds a month for each person. If the new directions are followed universally, it will cut its use to below half.

The cards will caution against hoarding foodstuffs in homes, pointing out that the practice not only is selfish, but that it contributes to high prices and defeats the purposes of the food administration in seeking an equitable distribution.

The reverse side of the card carries a message to householders on the world food situation and the duty of America toward feeding the allies.

## NEWARK OFFICERS LEAVE FOR CAMP TO BEGIN DUTY

The Newark men who received commissions recently at Ft. Benjamin Harrison are leaving the city to take up their duties, after a short furlough on leaving the training camp. On Wednesday evening, Lieut. L. P. Shinn and wife and Lieut. E. A. Simms and wife and son left for Ft. Riley, Kas., where they will be stationed. Lieut. H. C. Hart and Lieut. J. H. Ricketts, Ill., where he will be located at Camp Grant, and Major C. W. Miller, Lieut. Harold Rutledge, Ray Perry, John T. Hennessey and Frederick F. Wright will leave tomorrow morning for Camp Sherman, Chillicothe.

## Cold in Chest and Sore Throat Cured Overnight, By Gingerole

Doctors Guarantee It—Druggists Guarantee It

Stops coughing almost instantly; ends sore throat and chest colds over night. Nothing like it for neuralgia, lumbago, neuritis and to speedily drive away rheumatic pains and reduce swollen joints, swollen glands and to banish soreness and pain from varicose veins.

Money back if it isn't better than any preparation you have ever used for tonsillitis and pleurisy. Use it for sprains, strains, bruises, sore muscles, stiff neck, swellings, sore, painful or frosted feet and chilblains. Be sure its GINGEROLE, the "ointment with the ginger."

**MURINE** Granulated Eyelids, Sore Eyes, Eyes Infected by Sun, Dust and Wind quickly relieved by Murine. Try it in your eyes and in Baby's eyes. Ask Murine Eye Remedy Co., Chicago.

## AMBITION PILLS FOR NERVOUS PEOPLE

The great nerve tonic—the famous Wendell's Ambition Pills—that will put vigor, vim and vitality into nervous tired out, all in, despondent people in a few days.

Anyone can buy a box for only 50 cents, and T. J. Evans is authorized by the maker to refund the purchase price if anyone is dissatisfied with the first box purchased.

Thousands praise them for general debility, nervous prostration, mental depression and unstrung nerves caused by over-indulgence in alcohol, tobacco, or overwork of any kind. For any affliction of the nervous system Wendell's Ambition Pills are unsurpassed, while for hysteria, trembling and neuritis they are simply splendid. Fifty cents at T. J. Evans and dealers everywhere. Advertisement.

## Try This to Banish All Rheumatic Pains

People who have been tormented for years, even so crippled that they were unable to help themselves—have been brought back to robust health through the mighty power of Rheuma. Rheuma acts with speed; it brings in a few days the relief you have prayed for. It antagonizes the poisons that cause agony and pain in the joints and muscles and quickly the torturing soreness completely disappears.

It is a harmless and inexpensive remedy, but sure and certain, because it is one discovery that has forced rheumatism and sciatica to yield and disappear. Begin the Rheuma treatment today, and if you do not get the joyful relief you expect, your money will be returned. T. J. Evans always has a supply and guarantees it to you.—Adv.

## AMUSEMENTS

### AUDITORIUM.

"Intolerance." Large crowds saw the opening showings of D. W. Griffith's "Intolerance" at The Auditorium yesterday. Much has been said and written about this wonderful picture, but not one word of all the descriptive outlines can help but hint at the size and the sweep of this wonder work and it must be seen to be appreciated. Many have seen "The Birth of a Nation" but in this, it is such a big undertaking and it has been carried out upon such a scale of magnitude that only a hint of it could be grasped until it has been seen. Griffith carved his name in art history by daring achievements but in "Intolerance" he has outstripped himself. He has built towering walls just as they stood in ancient Babylon when Cyrus and his army took possession of that alien city of the ancient east. He has reared again the roadways, the streets and the houses in and about Jerusalem that figure in the greatest story that has ever been recorded in the upbuilding of man. He has made Paris of the 16th Century and the Court of Charles IX and his scheming mother bloom again like a symbolical green bay tree of dramatic art. And he has linked all this with scenes of current life that go deeper than mere outline of the age we are living in—they depict the hearts and the souls of the hour and show you life in the rough state of its contemporary evolution. And in these scenes and surroundings he has brought an army of

kawa, the notable Japanese actor in Paramount pictures and who is to be seen in "The Call of the East," on Monday at the Auditorium theatre, has spent much of his life in the United States, but is able to revert easily and naturally to the dress and manners of his ancestors.

In "The Call of the East," Mr. Hayakawa plays the part of a Japanese nobleman who, although he has adopted Western dress and customs, retains his ancestral home on a remote island where he wears the costumes and follows the customs of his forefathers.

### ALHAMBRA.

"Happiness is a habit," says Douglas Fairbanks. "Not the complacent smirk of the promoter of bottomless oil pools, or the silly grin of the fellow whose set expression indicates stupidity, but that warm, pleasant smile that radiates all the joy of sunshine on a spring day. It indicates peace of mind and genuine happiness just as truly as the mercury tells the temperature. Ever try to smile back at a man whose face—and brain—are all knotted up in a frown?"

Tonight and Tomorrow. Miss Juliette Day, the scintillating little star of "Upstairs and Down," the Station's Broadway hit, and whose successes in "The Yellow Jacket," "Chin Chin" and "Twin Beds" are equally well known, has been given a very satisfactory medium for display of her

D. W. GRIFFITH

people who characterize every impulse of the different races that figure in their days. He has shown all this in order to make it clear that the hope of mankind. A score of wonderful applications to his epic illustration of the theme which keeps alive the hope of mankind. This is why you will realize when you have seen "Intolerance" that he has created a new drama which will live through ages to come.

The engagement continues today and tomorrow, with a matinee and evening performance being seen each day.

**Hans and Fritz.** "Oh, you Holland Wooden Shoes," was the newspaper headline in a recent caption welcoming to the stage, "Hans and Fritz," the newest of musical comedies based on famous newspaper cartoons. "Hans and Fritz" is a stage version of Frank R. Dix's cartoons, after which the new hilarity is named. Everything in the way of artistic detail is said to be found regardless of cost, in the newest Dix's concept.

Leo Edwards and Will Cobb have written the libretto, and in his efforts Frank Kennedy has written the libretto, and Frank Tannehill has rehearsed the company, including a few of the best choristers who sing and dance their way through the play's three acts. The local engagement is announced at Newark for one day Xmas.

**"The Scarlet Pimpernel."** The Auditorium will offer a special Sunday program in which Dustin Farnum, clever Fox star, is seen in "The Scarlet Pimpernel," in which mystery romance is for interest. The story of the picture deals with the attempt of a band of revolutionary leaders in the France of 1792 to catch a group of Englishmen who are rescuing condemned noblemen from Paris. The conspirators are headed by Sir Percy Blakeney, known as "The Scarlet Pimpernel." Dustin Farnum, Burgess—leads the revolutionists, and in his efforts he must convert Lady Blakeney, Winifred Kingston—to his aid. At the time she does not know that her husband is the leader of the rescuing band. Matters are brought to a crisis when Blakeney is almost captured in Calais. By a clever piece of trickery he manages to escape, and Chauvin last sees him in a boat, singing lustily on his way back to England.

Farnum is surrounded by a great cast of players which includes Miss Kingston, William Burgess, Bertam Grassby, Bert Hall, Jack Nelson and others. In addition to this wonderful feature Mr. Farnberg has arranged to screen "Fatty" comedy "A Country Hero," in which 2000 laughs are promised. Besides this, the Hearst-Pathe screen, with its latest world events will be shown.

**Auditorium Notes.** For Monday and Tuesday next picture fans will see the clever Sessue Hayakawa, the Jap actor who has been seen in "The Call of the East," which is said to be something fine, more thrilling and sincere than this performer has ever done before.

Retreat of "The Germans at the Battle of Arras." The Third Episode will be shown for these two days. William S. Hart in "The Cold Deck," with an old picture nor a re-ramped issue, comes to the Auditorium next week. This is one of Hart's best photoplays and no doubt will draw crowds to the Auditorium.

**A Country Hero.** As one of the exciting episodes of his forthcoming production "A Country Hero," Roscoe Arbuckle staged the explosion of a Ford car in the street is said. "Fatty" assigned four cameramen and two grifter machines to the scene and the results are declared to be most satisfying. This is the first Paramount picture to be made by "Fatty" since he returned to the Coast studios, and it is to be shown here at the Auditorium theatre Sunday and Monday.

**Thrill Stamps Urged.** AS TIPS TO WAITERS. New York, Dec. 14.—Thrill stamps as tips to waiters is a suggestion placed before the public by persons interested in the promotion of the sale of the government coupons. It was learned that the practice had been adopted by a number of restaurant patrons. Where the customary tip amounts to 5 or 10 cents each day, the tip is withheld for several successive days and then the waiter is given a 25-cent thrill stamp to make up the amount of money he would have received.

**Women Are Boosting It.** You Cannot Fool the Women. Once you have shown them and got their confidence they will stick through thick and thin to what they know and believe is a good thing. Hundreds of women in our city are going around today with joy in their hearts and a new lease on life and health where before each day was one long "nervous drag of misery."

As one woman expressed it, "It's not the work you do, it's the way you feel that makes the drudgery, you cannot get ahead when you go to bed all in, too tired to sleep and get up in the morning half dead. Believe me I know. I certainly was a nervous wreck, every task a load, no ambition, thin, haggard and pale, an old woman before I was 30. Look at me now, some 30 years, eh? Work is a pleasure, I am just bubbling over with life and good spirits, the picture of health, cheeks rosy and full of the color that only ironized blood can give, while my phosphate-fed nerves are as steady as a clock, nothing worries me, I sleep like a top and feel like a girl of sixteen. Take it from me, I want Phosphated Iron to get credit for everything; too much cannot be said in its praise. It sure is the goods and everyone I have recommended it to is a booster."

This is only one of many like cases in our city, there is no need of any man or woman going around with that tired all-in feeling or any form of nervousness, if they will get next to themselves, take a brace, and stack up to a package of Phosphated Iron. It sure will spruce you up and make you feel like a live wire once more, so get busy.

To insure physicians and their patients getting the genuine Phosphated Iron we have put in capsules only. Do not take pills or tablets, insist on capsules. Evans' Drug Store and leading drug stores everywhere.—Advertisement.

## What Our Neighbors in Ohio Say About a New Discovery

Many local people are glad to testify to the good results obtained from Anuric, the discovery of Doctor Pierce of the Invalids Hotel, Buffalo, N. Y., for kidney and bladder disorders, backache, rheumatism and all uric acid troubles. This is what Mrs. C. L. Cramer says:

Delaware, Ohio.—"I saw an advertisement in the paper of Dr. Pierce's Anuric Tablets and sent for a trial package. I had doctoring a good deal for ten years. I often took different kinds of medicine for kidney or bladder trouble which the doctor thought I might have. Well, I never got any better. Sometimes I would be disturbed three or four times at night. Never any pain, just uneasiness. I had a soreness in my back and an awful weak back, so I wanted to see if the trial package would benefit me. I felt better from the first so I went to the drugstore and got a small bottle of Anuric Tablets and took all of them and never had to get up any more. After that I can say Anuric is just as recommended."

When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. They follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, chilliness and rheumatism. In some people there are sharp pains in the back and joints, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the tissues, muscles and joints, it causes lumbago, rheumatism, gout or sciatica. This is the time to try Anuric, double strength, the discovery of Doctor Pierce, for kidney trouble and pains in back and all over body. Write Doctor Pierce, Invalids Hotel, Buffalo, N. Y., and send 10c. for a large trial package—this will prove to you that Anuric is many times more potent than lithia and eliminates the uric acid from the system as hot water melts sugar—or ask your druggist now for a 50c bottle of Anuric.

## Christmas Gifts

We have a great many articles that are very suitable as holiday presents, among which are

**CANDIES**  
Selected from the very best makes, and in all size boxes up to 5 lbs.

10 NORTH SIDE SQUARE.

## The Twenty Payment Plan

An original and copyrighted plan of lending money on Furniture, Pianos, etc. The following features make the Twenty-Payment-Plan most desirable and absolutely fair to the borrower.

- 1.—It permits twenty full months to repay your loan, should you wish it.
- 2.—It relieves you of the responsibility of promising to pay large payments.
- 3.—However, the borrower if he desires can pay in part or in full at any time.
- 4.—Interest is charged at the legal rate only for the actual number of months loan is carried.
- 5.—You can pay in full in one month or twenty months and the interest is charged only on the actual amount of cash still outstanding.
- 6.—In other words: You are under no obligation to carry the loan any longer than you desire. The faster you pay the less it costs.

\$2.50  
Monthly Payment on \$50.  
\$3.75  
Monthly Payment on \$75.  
\$5.00  
Monthly Payment on \$100.

Interest at the legal rate. No extra charges for papers, appraisement, etc. Ask for free folder which explains the Twenty-Payment-Plan in detail.

## WITH THE NEWARK BOYS AT CAMP SHERMAN

(By Leo T. Prior.)

Camp Sherman, Chillicothe, O., Dec. 14.—The twenty-fifth day of December is a red letter day in our calendar and pur lives.—Christmas—a name to make glad the hearts of men. The atmosphere which is suggestive of Christmas bells and trees, stirs everyone to depths of kindness and fosters a spirit of fellowship and brotherhood. Christmas will find many boys celebrating "the greatest feast" at Camp Sherman. It will be a joyous occasion and a hilarious one, "a day of loving and giving," as big brothers to each other—the one greatest joy of life that comes from doing for others—the gleaming touch of unselfish friendship which comes far above anything else on earth.

Christmas Eve will find our spirits in gladness for old Santa Claus with wonder of how he can ever visit all in the camp. Christmas morning the awakening of the memory when as boys Santa gave to us tin soldiers with toy cannons, and a realization of a boy's dream, "Big Soldiers" with hopes of having real cannon soon. Mothers and loved ones burdened with loneliness for their boys, should hush it on Christmas day. Hope for the brightest and best to come out of all seeming sorrow. We are all happy in Uncle Sam's keeping, all of us in joy of doing our bit, mother, in a larger and more spiritual phase which relinquishes and gives. A nobler and wiser mother, capable of becoming a "Boy's best friend" more and more enabling him to become the soldier and real friend of the world. Hope is the work for this coming Christmas. Hope beyond all reason, therefore hope for enormous blessings in "our fight for the allies and all good people." Hope, with almost unending aggressiveness, and then the confidence that God will intervene and bring the proudest and largest of our visions "victory with peace on earth, good will toward men."

With keenest regret Battery B, as a whole, sees our captain leave for Fort Sill, Oklahoma, for a period of two months training at the Artillery school. Captain Post has been a master of efficiency summed up in an epigram—doing the right thing at the right time, in the right way. First Lieutenant Brennan will have charge until his return. He will appeal to the boys in that position due to his uprightness and fairness.

Col. Ashburn says, "many of my soldiers now approximate the seasoned veteran in drill discipline, and in many of the little things which accompany the transformation of the civilian into a soldier. I was never more proud of anything, than I am of the boys of the 324th regiment."

Most of the Newark city boys are in Battery B; quite a few from the country in Battery D, and a number in Headquarters company. Still there are others in the various Batteries of the battalion.

The drills held a few weeks ago to decide which platoons of the 324th regiment were to attend the foot ball game at Columbus on Thanksgiving day, resulted in the choosing of the first platoon of Battery F, and a platoon of Battery E. Battery B's second platoon was very good. Capt. Post was very much pleased. Only two marks against the drill of B; both of them in the rear rank—two men in the rear squad becoming bewildered. The Headquarters company drill was fine, but like B had slight marks against them. The Headquarters company of which there are about forty fellows from Newark are certainly a fine bunch of men. Lieut. H. R. DeWolf is their commander. They have been the recipient of many commendations by officers on inspection regarding the cleanliness and order maintained. Battery B boys always do their best in everything. We are the classiest bunch when it comes to dress. Hello Broadway. Nearly all the boys have \$17.00 leather leggings, silk hats, cords, etc.

Col. Ashburn has ruled that the recreation rooms be done away with in the different Batteries of the regiment so that the boys may have more space for their banks.

The officers and the enlisted men of Batteries B, D and Headquarters company, extend their most sincere thanks for the fine generosity of the Licking county people contributing toward the Athletic fund.

Battery B has been furnished with a Victrola and it is kept constantly

going showing our boys have an ear for music.

The band of the 324th regiment in which there are three Newark boys—Everett Francis, Eustace L. Collins and John Kline, is a band of efficiency—the best there is in Camp Sherman.

Sergeant Priest assisted by Vic Adams and staff, put on the best spread imaginable Thanksgiving. The Menu: Purée of Tomato Soup, Celery, Olives, Roast Turkey, Oyster Dressing, Candied Alabama Yams, Early June Peas, Cranberry Sauce, Fruit Salad, Pumpkin Pie, Coffee, Cigarettes, Cigars, Mints and Cider.

Eldon Buttenbarger of Battery B, has written a Battery B battle cry:

We're going over to Germany to fight for Uncle Sam.

We'll whip the Hunns and Teutons, drive them from their native land.

We will free the Belgian women from the great oppressor's hand.

As we march through Berlin.

CHORUS.  
Glory, Glory, Can't we do it, Glory, Glory, Won't we do it, Glory, Glory, Yes we'll do it, Hurrah for Battery B.

We will show the World around us that Autocracy must make way for democracy for all.

We will chain the mighty nation, free the weaker and the small.

As we march through Berlin.

We will capture all the submarines, that Kaiser Bill can make.

We will use our mighty aircraft guns and Zeppelins we'll take.

We have got to do our duty as our Liberty's at stake.

As we march through Berlin.

In honor of our Uncle Sam we'll sail across the sea.

We'll raise the Stars and Stripes for those who need their Liberty.

As our fathers died to free us, let us die to make men free.

As we march through Berlin.

The soldiers who are members of the Loyal Order of Moose have received the war emergency cards. The boys now receive their benefit which gladdens their hearts.

The different batteries now have the regulation field range placed outdoors. Wood is used in the range for fuel, no coal—only when wood is not available. Our "cats" are cooked on it and Batteries A and F have been feeding outside at noon.

No doubt many sweethearts have knitted sweaters for their boy friends for Christmas presents, but far more in importance are knitted helmets, socks and gloves. With heavy clothing issued by the government, including sweaters, our bodies do not get cold. It is our ears, hands and feet.

Thirty per cent of the Battery B will be allowed passes home Christmas. Those wishing that privilege will turn in their names and some 60 will be selected by lot.

C. W. Fisher and Wesley Annarino have been transferred from Battery B to Camp Hancock in the instruction Motor Division, Augusta, Florida. Cary Billman, Howard Balzer, Harry Speaks will also be transferred in a few days to the aviation field, San Antonio, Texas.

Corporal Sedgwick, who was exempted to finish his course in school, bid adieu to his fellow comrades with regret. Stewart was one fine fellow and exercised a wholesome influence with whom he came in contact, by his unusually attractive and forceful personality.

Walter Greeley took his 171st bath since coming here. A ventilation pipe which runs from the roof to the lower squad room, got clogged with snow and when the snow melted all the water came down on his bunk.

Flick Huffman goes some place every night to hear full-hearted lectures. He said that he met a nice old man—a total abstemious—the other night, but had to lose his friendship for—"he pulled the old one" and asked him where he got his cow.

B-r-r-r B-r-r-r, when it's Harry H. Richards turn to start a fire in the furnace on a cold and early morning. He starts with a big yawn and then "mutters unfavorable things" about what he will do when he meets the Kaiser.

Henry Everett Speaks saw a picture show last Sunday in Chillicothe. What he liked best was the "Beautiful Lady Spy." Harry says "she was always looking after the men."

Betsy Simpson has built a "Tool Box"—on wheels. It makes it much easier to borrow his tools. He had 1700 tools, but now has only a "baker's dozen."

If Bill Howard happens to be visiting at his house, he insists upon being entertained every moment of time, yet, always leaves the impression of being bored to death. Why is it?

Merle Sweetser refuses to pay anything farther on his pedestrian's license. He can't do so "Jay Walking" around here without being nearly hit by something.

"One of the new year resolutions of Fred Walker will be 'Never to spend the week-end in Chillicothe'—two hours is enough."

Skeeter Binder has a new girl with bobbed hair and which is girded by a "red artillery hat cord."

Ross Jenkins says, the Barber Shop is the place—to be seen—and heard, not to listen.

Vincent Carr, never lets anyone with whom he talks, finish what he has to say. In some ingenious manner he interrupts them and switches to one of his own.

Steve Costello, attends a reveille and retreat with every bit of temperament he owns or can borrow. In the morning "it's the frosty air that makes him bad; in the evening it's the sunset with such beautiful colors."

In conclusion will say that the boys of the 4th section regret the going of our fellow comrade, John Mitchell, who was exempted. You know, John killed some man's dog accidentally last spring, and ever since until his departure received long letters of threats and bloodshed, but was not scared until the day of exemption, when he got a letter of two lines, it said: "You know what is going to happen—come home, to cash in."

No, Maude, dear; in order to write a gushing letter it isn't absolutely necessary to use a fountain pen.

### "I Feel Like a New Man Now," Salesman Declares

"I feel like a new man since I started taking Tanlac," said H. A. Connel, a salesman, who lives at 178 E. Town street, Columbus. "I can eat what I like now, meat and potatoes and things like that, without having it hurt me in the least."

"Before I took Tanlac I was all run down. My stomach troubled me and I had to be careful what I ate. I had that draggy, tired feeling."

"I was nervous, too, and couldn't sleep soundly. I got up almost as tired as when I went to bed, but I do not feel that way now. I think Tanlac is a mighty fine tonic, and I want to recommend it as a good medicine and system builder."

Tanlac is purely a vegetable tonic, made from roots, barks and herbs, and is especially designed to build up run down people. It has helped thousands who suffered with disordered stomach, liver and kidneys. If you need a good tonic get Tanlac today. It will do for you what it has done for thousands of others.

Tanlac, the new vegetable tonic, stomachic, appetizer, combatant and invigorant, is being especially introduced at Erman's Arcade drug store. Tanlac may also be procured at the Evans' pharmacy (Warden Hotel block, east side square) Newark, and the Hebron drug store, Hebron, O.—Advertisement.

Steve Costello, attends a reveille and retreat with every bit of temperament he owns or can borrow. In the morning "it's the frosty air that makes him bad; in the evening it's the sunset with such beautiful colors."

In conclusion will say that the boys of the 4th section regret the going of our fellow comrade, John Mitchell, who was exempted. You know, John killed some man's dog accidentally last spring, and ever since until his departure received long letters of threats and bloodshed, but was not scared until the day of exemption, when he got a letter of two lines, it said: "You know what is going to happen—come home, to cash in."

## SOCIAL EVENTS

**SOCIETY EDITOR, AUTO PHONE 23123.**

The members of the Intermediate Society of the Woodside church were entertained with a bob sled ride on Thursday evening. The party went to Granville where luncheon was served. Those in the party were: Misses Florence Pine, Alice Pine, Margaret Phiel, Mabel Phiel, Mary Young, Messrs. Ray C. Jones, Kenneth Netters, Frank Young, Howard Pratt, Harrison Kimes and Delbert Conn.

One of the most delightful meetings of the Kantabatus Klub was held on Thursday evening when Miss Dorothy Allen entertained at her home in Dover avenue. A business meeting was held and plans are in progress for the celebrating of the second anniversary of the club. Miss Marguerite Mueller was initiated as a member of the club. In the game of euchre the trophies were awarded to Miss Irene Winter and Miss Martha Friel and at a late hour a delicious luncheon was served the members. Misses Hazel Stasel, Mary Stasel, Viola Stoppel, Alice Prior, Ethel Feeney, Marguerite Mueller, Anna Lavery, Irene Winter and the hostess, Miss Dorothy Allen and one guest, Miss Loretta Mueller.

The next meeting will be held in two weeks at the home of Miss Ethel Feeney.

The members of the Tuesday Afternoon Bridge club are delightfully entertained on Wednesday afternoon at the home of Mrs. Fred Baker in Hudson avenue. At the conclusion of the game the souvenir of the club was awarded to Mrs. Harry Scott. There were no guests of the club.

Fifteen friends surprised Miss Clara Copeland at her home in Maple avenue on Thursday evening. Cards and music furnished the entertainment for the evening. The prize being awarded to Miss Mary Gilmore and Mr. Leo Phalen. At eleven o'clock a delicious dinner was served to the self-invited guests.

The Busy Fingers will meet with Mrs. Nichols in the Vogue Millinery Shop, Friday evening to sew for the Red Cross.

## OBITUARY

**Margaret M. Ellis.**  
Margaret M. Ellis, aged 79 years, 4 months and 9 days, died at her home, 210 Wilson street on Thursday afternoon at 4 o'clock. She was a graduate nurse of Boston, Mass., where she practiced until 1901 when she came to Newark. While in Boston she was affiliated with the Episcopal church and has been a faithful member of that denomination.

She is survived by one sister, Mrs. Sarah Thomas of this city.

The body was removed to the company, where funeral services will be held on Saturday afternoon at 1:30 o'clock. Rev. L. P. Franklin officiating. Interment will be made in Cedar Hill cemetery.

She was also a member of the W. R. C., which organization will hold services.

**Mrs. M. R. Scott's Funeral.**  
At 2 o'clock this afternoon, Rev. L. C. Sparks, pastor of the First Methodist church, officiated at the funeral of Mrs. Miltor R. Scott, after which burial was made in Cedar Hill cemetery.

**A Comforter Like Job.**  
He (weakly)—It is good of you, Mrs. Houston, to come and see me when I'm so ill.

She (gustily)—Not at all; I wish it were more often.—Cassell's Saturday Journal.

## ABOUT PEOPLE

Mr. and Mrs. J. W. Albright, 191 Clinton street, left Thursday for Camp Sheridan, Ala., where they will visit their son, Edgar.

Mrs. Ellen Forry and daughter, Miss Genevieve Forry, of West Main street, will leave for Florida within a few days.

Mrs. G. Calhoun has returned to her home after visiting relatives in Columbus.

Mrs. O. E. Montgomery of Johnston visited in the city Thursday.

J. W. Shannon in Tenth street, left Thursday evening for Camp Sheridan, where he will be the guest of his son, Harold.

David Raison of Needletown, Cal., is visiting his parents, Mr. and Mrs. Richard Raison in Stansbury street.

Mr. and Mrs. Richard Raison were Columbus visitors, Thursday.

Mr. and Mrs. E. J. Dorsey of Granville, visited in the city, Thursday.

Frank Young, formerly deputy city auditor, is spending a few days with his parents. Mr. Young is now in the departmental service at Washington.

S. Swan and sister, Mrs. A. Binder, received word from their father in California saying that their two brothers who enlisted had arrived in France.

Mr. and Mrs. Joseph Wells of Outville, were visiting in the city, Thursday.

Mr. and Mrs. Wm. Kneller of Hebron are visiting in the city today.

Harry Tenton of Granville visited friends in the city, Thursday.

## THE COURTS

**Juvenile Court.**  
Nancy Fisher was arrested by order of Probate Court yesterday for a non payment of a fine.

**Common Pleas Court.**  
L. F. Wenger vs. Sarah V. Boyer, action in replevin. Case was dismissed for want of prosecuting entered. The court excused them from further attendance.

The court, after thanking the petit jurors for their attention to the business of the term, excused them from further attendance.

Judge Fulton was engaged Friday afternoon in hearing the testimony of the witnesses in the divorce case of Gay Bazler vs. Clara Bazler. The hearing was not concluded at the press hour.

In probate court the remainder of the testimony will be taken Saturday morning in the divorce case of Edna L. Ice vs. Chas. H. Ice.

**Real Estate Transfers.**  
Cordelia Butt Prouty to W. H. Seigfried; lots 30 and 31, Croton village; \$1, etc.

John R. Warner to Hazel G. Miles; lot 132, Talmadge place addition, City; \$1, etc.

## SOLDIERS' LETTERS

The following letter shows considerable change in temperature:

Dear Dad—Just received your letter and was sure glad to get it. How is everything back in Newark?

I am all right, just kind of cold. It was so cold here that it froze the waterpipes in our bath-house. I was sure glad to get your picture for I forgot to get one before I left home.

Dad, the first crop of cotton is just about ready to pick. The first crop grows about as high as your head, and the next crop about as high as a small boy. They cut about three or four feet from the ground the first time. Another growth comes on the stock and this is the second crop.

The average person can pick about 275 pounds in a day. I saw a cane mill, like the one you had in Missouri. It certainly is a joy to see one of these works. I must close for this time. Don't worry about me for I am all right. Yours loving son, McKinley King, Co. A, 145th U. S. Infantry, Camp Sheridan, Ala.

## Every Day Etiquette

"Please tell me on which hand a young girl should wear her ring," requested Maude.

"The left hand is always reserved for the engagement and wedding rings. Therefore the right hand is the proper one on which you should wear your ring," advised her aunt.

Try the Advocate Want Columns.

## HUSBAND THE BETTER LOVER

He is Practical, Demonstrating His Affection in Deeds Rather Than in Words.

Invariably the radiant happy married woman of fifty has adopted the man's point of view regarding her life. The average man is a better lover than the average woman, because he loves practically, showing affection in acts rather than in words. From the beginning his home is his inventive to effort. Sometimes, after marriage, as demands increase, he becomes so engrossed in his purpose that he forgets to talk of love.

Then it is that the wife, who has small understanding of love in action, pines because she is sure he has grown cold. No, he is at fever heat, lest he fall in providing physical proof of his affection.

The woman who finds happiness in married life has a sufficiently masculine outlook to understand him. She, instead of brooding over imaginary slights, in return proves her devotion by work. Her domestic duties are dignified by love, consequently she can fix her thoughts upon something diverting while she mends socks, forgetting the commonplace.

She can hear the song of the bird or think of the story she read last evening while she does the work of the absent cook. To her it is a joy to plan attractive meals that will add to the efficiency of her loved ones. She has a profession—home making.—Pittsburgh Dispatch.

## RUSSIA, COUNTRY OF FAMINE

Peasants, Next to Orientals, Are Regarded as the Hungriest People on Face of Globe.

Next to the proletariat of India and China, the Russian peasant feels the pinch of poverty and hunger more keenly and more frequently than any other citizen on earth, the National Geographic magazine asserts.

One of the earliest famines in Russia of which there is any definite record was that of 1600, which continued for three years, with a death toll of 600,000 peasants. Cats, dogs and rats were eaten; the strong overcame the weak and in the shambles of the public markets human flesh was sold.

Multitudes of the dead were found with their mouths stuffed with straw.

Three Russian famines of comparatively recent date were among the most severe in the history of the country. They occurred in 1801, 1906 and 1911. During the ten years following the first of these periods of dearth the government allotted nearly \$125,000,000 for relief work, but the sums were not judiciously expended.

The famine of 1911 extended over one-third of the area of the empire in Europe and affected more or less 30,000,000 people, while 8,000,000 were reduced to starvation. Weeds, the bark of trees and bitter bread made from acorns constituted the chief diet for the destitute. This was the most widespread and most severe famine which has befallen a European nation in modern times.

## First Woman Doctor.

The first woman admitted to the Ecole Medecine, the famous Paris medical college, who also the first to become a member of the New York Academy of Medicine, was Dr. Mary Putnam Jacob, who was born in London seventy-five years ago. She was the daughter of George P. Putnam, the New York publisher, and studied in several American schools before taking her degree in Paris in 1871. Two years later she became the bride of Dr. Abraham Jacob, a native of Germany, who fled that country when charged with "high treason" for participation in a German revolutionary movement, and settling in New York, became one of the most distinguished of American physicians. Dr. Mary Putnam Jacob was prominent in the profession as professor and hospital physician until her death in 1906. The first woman physician in America was Dr. Elizabeth Blackwell, a native of England, who received her degree of M. D. in 1849, and later returned to England to practice her profession.

## Spud Is Important.

"The humble potato is destined to play an important part in the present world war. We are warned that as much depends upon bread as bullets, but owing to the scarcity of bread and an overabundance of potatoes, it would seem that more attention must be given to the storing and preserving of this crop.

"Scientists used to say that there was but little food value in the potato. But recently they have learned with others that a little learning is a dangerous thing. Now we are told that there is almost a balanced ration to be found in a bountiful meal of potatoes. At any rate it has been amply proved that there is no single vegetable that brightens so many homes, or feeds so many people as the potato.—Exchange.

## No, You Don't!

The late John G. Johnson, the famous Philadelphia lawyer, was once engaged in a case where a certain cantankerous old woman bore witness for the opposition.

Her testimony concluded, the old woman proposed to leave the witness box, but Mr. Johnson said:

"Hold on, madam, I've one or two questions to ask you."

The old woman, however, did not halt in her departure.

"No, ye don't," she said. "None of yer questions for me. You ain't on our side."

Might isn't right, in spite of the fact that it isn't apt to be left, either.

## SHOP IN THE MORNING

## A STORE FILLED TO OVERFLOWING WITH PRACTICAL, SENSIBLE GIFTS

In keeping with the policy adopted by the majority of stores throughout the country, we have dispensed with all Christmas decorations this year. These are strenuous days—days of saving and economy—and in eliminating decorations the stores have saved thousands and thousands of dollars, which ultimately goes to the consumer. Of course, you are going to give practical gifts this Christmas—frivolous and merely ornamental articles are hardly in place during these serious wartime days.

Here you will find gifts that are sensible, yet pleasing and most acceptable to those who receive them; and prices are as low as shrewd buying, early contracts, and keeping expenses down to the minimum will permit. The true "Spirit of Christmas" will be best expressed if your gifts are practical and are bought here—a store of known worth and integrity. We are prepared for the onrush of buyers tomorrow.

**WILLARD SERVICE STATION.**  
Newark Auto Supply Co.  
77 E. Main St.—Tracy & Bell.

**POPULATION OF NEWARK IS 32,861**

The new city directory for Newark has just been received from the publishers R. L. Polk & Company. According to the information gathered by the canvass, the population of the city has increased since the last publication, 3,815.

This brings the estimated population of the city up to 32,861, and the directory contains 14,605 names.

The canvass also disclosed a satisfactory picture of the houses recently built and that the number of vacant houses are few.

**BOYS MAY SPEND CHRISTMAS HERE**

There is still hope of a number of the Newark boys who are at Camp Sheridan spending the Christmas days at their homes here. Several families have received telegrams stating they were coming, even since the order of the city was issued for the boys to be sent to the front. One message received stated that the Newark men had chartered a train, costing \$500, and that they would travel in a special.

## GERMANS EXPOSE NEW PEACE FARCE

Republicans in Switzerland Assail the Government.

## JUNKERS BLAME THE ALLIES

Seek to Instill New War Spirit in Starving People by Fear of Total Destruction—Pamphlets Sent Across Border Calling the War Policy of the Kaiser Humbug of the People.

As an illustration of the activity of the German republicans in Switzerland who are working to overthrow Hohenzollern copies of a pamphlet which is being circulated across the frontier were made public by the committee on public information at Washington.

This political tract denounces bitterly the junkerism of Germany, the war lords who control the government, whose sham peace proposals are described as an effort to humbug the German people.

The pamphlet of the German republicans evidently was written some time ago, but copies just have been received in the United States. Officially no reference has been made by the United States government to this activity, and the movement, if it may be described as such, is not regarded as having been developed to such a point that it might be considered a factor in the German situation. It is known, however, that the German republicans are continuing their agitation at least without the empire and circulating their literature of protest against the present government.

**Torn Out Sympathy by Rooks.**  
The author of the pamphlet, discussing early German peace overtures, says of the ruling classes in the empire:

"Did they intend this step to produce any impression upon the neutrals? That may scarcely be. By the invasion of Belgium, by the reckless drawing of thousands of the women and children of neutral peoples in the sinking of the Lusitania, Germany has torn out by the roots the sympathy of every thinking neutral. That sympathy cannot be recovered by any such pathetic peace suggestion as this. And, then, does anyone in the upper circles in Germany imagine that the neutrals, especially in Switzerland and the Netherlands, are unaware of the true economic situation, or, rather, let us say the economic distress of Germany; that they do not know despite all its victories east and west that Germany has not the slightest chance of imposing upon the world a 'German' peace such as is the dream of the chimney pot and cabbage lords of Prussia?"

"What is the object aimed at in this whole thrashing out of peace phrases? It is not intended to produce any impression either upon the enemy or upon the neutrals—no, for the ever so many times it is intended to humbug the German people.

"The German people," the pamphlet continues, "which at bottom does not understand why it has to defend the boundary line of Germany so far away as down there in the distant Balkans, knows only too well that a success in that remote theater of war can in truth bring a prolonging of its misery, but can in no sense bring a decisive victory. The weariness of war marches on into infinity; in order to lastly patience into the people something new has been invented, and that is the farce of peace, which now, in accordance with all the rules of dramatic art, is to be presented to starving women and children.

**The Farce as They See It.**  
"The program of the farce may now be sketched with a light touch.

"Act 1. The central powers make peace proposals based upon and unacceptable by reason of territorial enlargement, annexation, both open and disguised, a colossal strengthening of Germany as a military power.

"Act 2. The allies, who will fight to secure a true and lasting peace based on mutual understanding and putting an end to military states, reject these peace proposals—exactly as the German government foresees.

"Act 3. And certain. The German people is informed through the belligerent (field-gray) press that the wicked enemy will have absolutely nothing to do with peace, that they insist upon the complete annihilation of the German people; that therefore naught is left but to endure through everything, to starve to the very end, to shed their blood to the last drop—until Junker and captain of industry have attained the object of their war, which is the robbery of other peoples, the enlargement of their power both abroad and at home.

"When the matter is artfully put upon the stage the instigators of war can hope after this novel and original fashion to fan anew the 'righteous wrath' of the starving, war-weary German people against the enemy, to exhibit its inevitable fate of being blotted white."

## REVEALS HIDDEN GOLD

**Note in an Old Shoe Tells Sister Where to Find It.**  
A message hidden in an old shoe by Charles R. Hill, who took his life in Hills Valley, Utah, directed his sister to a spot at the base of a tree, where \$2,400 in gold was found. Hill was an eccentric recluse, who lived in the foot hills named after him. He left an estate valued at about \$50,000.

## WOMEN OF CHICAGO TRY TO "DO THEIR BIT"

Willing to Work in Executive Capacities for Salaries Men Would Consider Large.

War's demands for women in industry are meeting a ready response, but the trouble is too many women want to be generals and there are not enough privates to go around.

This, at least, is the conclusion of officials in charge of the women's bureaus of employment agencies in Chicago. Women who are willing to work in executive capacities for salaries the most men would consider munificent, are plentiful, but applicants for just plain jobs are scarce around the employment agencies.

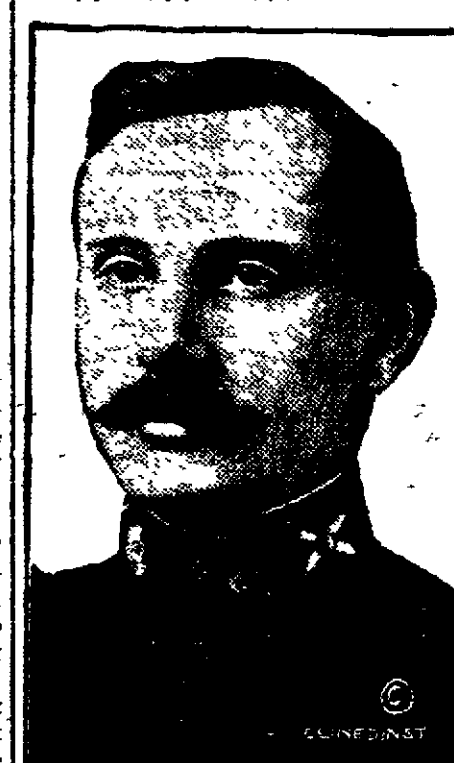

"Have you a position to take charge of girls in a large place?" was the modest request of a recent applicant at an employment agency here. "Nothing that is confining, you know, or to keep me in one place and be like some, as I have never worked before."

"I feel equal to earning one hundred dollars a month," another declared, "although I have had no experience in running an office. I manage my house beautifully, though."

A woman from a farm in Michigan appeared a few days ago and specified her qualifications for the sort of position she wanted. She was sure of her ability to manage a law office and if emergency demanded she could boss several hundred girls in a factory. She would not accept a salary of less than \$50 a week, however.

The position of diplomatic buyer for the government at a salary of \$50 per week was just suited to the talents of one applicant. This was the lowest salary she would accept and even then opportunities for promotion must be rapid.

## ARMY OFFICER WHO BLINDED ROOSEVELT

Col. Daniel T. Moore, now commander of the 310th Field artillery, who as a "husky young captain of artillery," walloped Colonel Roosevelt when the latter was president, causing him to lose the sight of his left eye.

The captain was at that time and frequently engaged his chief in boxing bouts. An unusually sharp counter landed, injuring blood vessels in the eye. Captain Moore never knew that he had blinded the former president until the white at a health training camp in Connecticut.

The man who blinded Roosevelt is over six feet tall, and built proportionately. When he doubles up his fist it looks like a hammer.

## TO STORE ISTHMIAN CROPS

Storage Plant to Cost \$1,000,000 Will Be Built at Cristobal.

Ground is being broken for a \$1,000,000 cold-storage plant for the Panama canal near Cristobal at the Atlantic terminal. The need for abundant storage facilities has arisen partly as the result of the arrival of so many troops and partly from the need of storing supplies in anticipation of possible war needs.

The canal zone is raising large quantities of vegetables and fruits which must be kept for some time after being harvested until consumed.

The plant will be operated by electricity from the hydro-electric power station at Gatun dam, seven miles distant.

## MARRIED IN DUGOUT

Wash Stand Serves for Altar When Coast Artillery Men Wed.

A military wedding took place the other evening at the home of Mrs. Gertrude H. Woodward, when Miss Dorothy V. Pearce became the bride of Sgt. James G. Caplinger of the Sixth company, California Coast artillery.

A trench dugout was the "church," while the altar was the rough washstand of the soldier, minus the wash basin, soap and towels.

The ceremony was performed by Chaplain Griffith of the Coast artillery, in the presence of only a few friends of the couple. Corp. E. H. Morrison acted as best man.

### FOR SALE OR RENT.

For Rent or Sale A new modern house and about four acres of fine truck land at 245 S. Sixth st. Price \$3500. Inquire 1249 or 7450. 12-14-3t

ed Gas, to new low records and sent the price of gas steady at 1.10 lower, with yesterday's 1.21 and May 1.10. Leading houses put considerable selling pressure on oats and brought about a decided sag in quotations. Big supplies of hogs at the chief packing centers throughout the country made provisions drop. Pork, especially, was weak. Packers selling did a good deal to force the prices sharply down grade.

**Chicago Grain.**  
(Associated Press Telegram)  
Chicago, Dec. 14.—Opinions that with a return of normal weather the surplus of corn would increase, tended today to ease the corn market. Opening prices, which ranged from one cent off to one cent under, with January 1.23 and May 1.19 1/2 to 1.19 1/2, were followed by a moderate setback all around.

Prices closed steady at the same as yesterday's (1.10) 1/2 lower, with January 1.21 1/2 and May 1.10. Leading houses put considerable selling pressure on oats and brought about a decided sag in quotations. Big supplies of hogs at the chief packing centers throughout the country made provisions drop. Pork, especially, was weak. Packers selling did a good deal to force the prices sharply down grade.

## NO MIDDLE CLASS IN CHINA

Display of Only Most Expensive and Cheapest Merchandise in Stores Proves the Fact.

An observant traveler in China will not fail to notice when purchasing articles of daily necessity, that there are only two classes of articles—the most expensive and elaborate and the cheapest and crudest. This is but a proof of the absence of a middle class, says East and West News.

A fox fur gown worth a thousand dollars or a giant herb valued at a hundred dollars is not at all uncommon in China, but practical and well-made articles that would be welcomed by middle-class men are hardly obtainable. Those who admire Chinese handicrafts as achievements beyond the power of Japanese artisans do so because they have only seen articles intended for upper-class customers willing to spend countless dollars upon luxuries. Those on the other hand, who declare Chinese artisans hopelessly crude, are men who have seen only the cheap articles intended for the masses.

Japanese who judge the ancient arts and industries of China by the best productions of the Han, Tang, Sung, Yuan, Ming and Ching dynasties that have been preserved here, forget that crude articles of common use have never crossed the sea of Japan and that only articles of the best kind came here as merchandise during the many centuries of commercial intercourse between the two countries.

## Cures for Sore Throat.

One teaspoonful of pulverized sulphur and two teaspoonfuls of granulated sugar (taking one teaspoonful once in four hours) will cure a sore throat.

Spreading a cloth with lard and sprinkling it with turpentine will also cure a sore throat or a cold in the chest.

Burn sulphur on an old shovel or dust pan and carry it through the rooms in a home and this will prevent others from catching cold or sore throats off one who has them.

Garlic salt and tartar for sore throat.

Use mustard paste made of one part mustard to three or four parts flour for a cold or any form of larynx or throat or chest colds.

Blobs—"The days are getting shorter." "Stobbs—"Yes, it gets late very early now."

## TO HAVE SMOOTH, WHITE SOFT SKIN ALL WINTER

Does your skin chap or roughen  
early in this weather, or become un-  
duly red or blotchy? Here is a quick,  
easy way to overcome the trouble and  
keep your complexion beautifully  
white, smooth and soft the winter long.  
Just get an ounce of ordinary merco-  
lized wax at the nearest drugstore and  
use a little before retiring, as you  
would cold cream. Upon arising, re-  
move the coating with sudsy water.  
The wax, through some peculiar at-  
tribute, flecks off the rough, discol-  
ored or blemished skin. The worn-out  
cuticle comes off just like dandruff,  
only in almost invisible particles. Mer-  
colized wax simply hastens Nature's  
work. Used as required, it keeps the  
face constantly free from devitalized  
skin and only the healthy, young-  
looking skin is in evidence. It's the  
best treatment known for weather-  
beaten, aged, muddy, freckled, pimpled  
and all unbecoming complexions.  
Some skins wrinkle easily in winter.  
There's an excellent remedy in a harm-  
less wash lotion made by dissolving an  
ounce of powdered saxolite in a half  
pint of witch hazel. This will quickly  
eradicate every line. Advertisement.

**Birth Announcement.**  
Mr. and Mrs. Arthur Patrick of  
233 South Williams street, announce  
the birth of a son, December 9th.

**Removed From Hospital.**  
Mrs. E. F. Ryan was removed  
yesterday from the private hospital  
in Granville street to her home in  
Dewey avenue, in the Criss Brothers  
ambulance. She is reported as do-  
ing nicely.

**At Base Hospital.**  
Mrs. Klein of this city has gone  
to Camp Sherman at Chillicothe to  
visit her son, John Lawrence Klein,  
who was operated upon lately for  
appendicitis at the base hospital, and  
who is getting along nicely.

**New Daughter Arrives.**  
Mr. and Mrs. Edward Duffy an-  
nounce the birth of a daughter, De-  
cember 14th at their home, 17 South  
Fifth street. Mrs. Duffy was formerly  
Miss Mary Keeley.

**Warning—Conserve Gas.**  
Tomorrow's Advocate will contain  
a half page announcement from the  
Newark Natural Gas & Fuel com-  
pany warning the people to conserve  
their supply of gas. The coal short-  
age and the abnormally cold weather  
are placing a heavy burden upon the  
gas company and whether or not  
there is discomfort and actual suf-  
fering will depend very largely upon  
the co-operation of individual con-  
sumers.

**Buying Thrift Stamps.** Farmer an-  
nounced this morning that the local  
postoffice has so far sold \$2363  
worth of Thrift Stamps and War Sav-  
ings certificates. Soon everybody  
will be buying Thrift Stamps. The  
new savings system gives the Ameri-  
can people the best opportunity ever  
offered to cultivate Thrift and at the  
same time help the government win  
the war.

**Prizes for News Items.**  
Who will win? The Advocate's  
cash prizes tomorrow? Two dollars  
will be given to the reader who tele-  
phones or sends in this office this  
week the best local news story or  
best "tip" leading to a local story.  
"Human interest" or "feature  
stories" of a local nature are wanted  
as well as "live news." A second,  
third and fourth prize of one dollar  
each will also be given. Telephone  
or send the news of your neighbor-  
hood to The Advocate.

**Collects Old Pictures.**  
Photographer Mueller of the Ar-  
cade studio has a collection of pic-  
tures which were taken nearly a  
hundred years ago and all of which  
are very interesting.

**Consignment of Coal.**  
E. J. Maurath, the well known  
South Fourth street coal dealer, re-  
ceived a consignment of two cars of  
coal yesterday. It is unnecessary to  
state that it was not hard to dispose  
of, Mr. Maurath having many orders  
on his book for future delivery.

**Trains Reported Late.**  
The present cold weather has in-  
terfered seriously with the sched-  
ule of passenger trains on both the  
B. and O. and Pennsylvania. The  
heavy snow also hampers work of  
the trainmen in getting their trains  
over the road. Early Pennsy trains  
were several hours late this morn-  
ing, and the several through B. and O.  
trains were also reported late.

**Sheds for Trucks.**  
As it is expected to start work on  
the remodeling of a part of the Cen-  
tral fire department in a short time,  
temporary sheds are being erected in  
North Fourth street for the housing  
of the fire trucks during the time  
of the repairs. It is planned to re-  
model the part of the station where  
the trucks have been kept.

**Ducks Visit City.**  
Three wild ducks. Goldeneyes, are  
the prize which Fulton Van Voorhis  
captured this morning. The ducks  
were seen paddling around in the  
North Fork of the Licking river,  
east of Main street, and have been  
seen by Van Voorhis. He proved his  
marksmanship by bringing down the  
fowls.

**Birth Announcement.**  
Announcement is made by Mr. and  
Mrs. Frank Ropp of 53 Channell  
street of the birth of a son, Friday  
morning, December 14.

**Condition Improved.**  
The condition of Mrs. W. E.  
Stephenson of 371 Central avenue,  
who has been seriously ill at the City  
Hospital, following an operation, is  
greatly improved. Dr. H. H. Postle  
performed the operation.

**Sent to Texas.**  
The Newark boys, who enlisted  
Tuesday at Columbus in the signal  
corps of the aviation department,  
left on Thursday afternoon from Co-

lumbus for San Antonio, Tex. All  
who enlisted from here were sent  
there with the exception of Archibald  
Davis and Edwin Smith.

**New Ambulance Here.**  
The new ambulance of the Citizen's  
Undertaking company arrived in  
Newark Thursday evening. The ma-  
chine which was to have been de-  
livered here on November 16, is  
manufactured by the Keystone com-  
pany and is a Cole 8.

**Accepts New Position.**  
D. M. Conn, who has been in the  
employ of the Wehrle company, has  
accepted a position with The Advo-  
cate.

**War Souvenirs From France.**  
Miss Margaret Fuller, daughter of  
Mr. and Mrs. Charles W. Fuller of  
West Locust street, today received  
two interesting war souvenirs from  
Bourbonne, France. One was taken  
from a captured German Zeppelin,  
the other a paper knife, the handle  
of which was fashioned from a shell.

The souvenirs came from the  
French officers to one of whom Miss  
Fuller had sent a comfort-bag some-  
time ago.

**New Rubber Stamps.**  
Rubber stamps are being distrib-  
uted to the draft board of each coun-  
ty. If the stamp they have is dam-  
aged in any way they may return it  
and receive a replacement of a new  
one.

**At Taylor Hall, Sunday.**  
A free lecture will be given at  
Taylor Hall, Y. M. C. A. building, at  
2:30 o'clock next Sunday afternoon  
by W. H. Spring of Portsmouth, on  
"The World War in Prophecy and  
What Next?" This is an interesting  
Bible lecture that Mr. Spring has  
been delivering to large audiences  
in many cities.

**Letter From Calvin Hazlett.**  
Rev. Calvin G. Hazlett has just  
received a letter written in October  
by his son, Calvin, in India, telling  
of his trip to the other side of the  
world, and describing his interesting  
experiences on the way. The young  
man's address is: Calvin H. Hazlett,  
care American Presbyterian Mission,  
Allahabad U. P., India.

**Goes to Jacksonville.**  
Harry V. Kuppinger of Columbus,  
who enlisted in the quartermasters'  
enlisted reserve corps, Saturday, has  
arrived home to spend a few days  
with his parents, Mr. and Mrs. G. H.  
Kuppinger, Spring street. After  
Tuesday he will be located at Camp  
Joseph E. Johnson at Jacksonville,  
Fla.

**Soldiers Medal Fund.**  
Two contributions to the soldiers  
medal fund were received Friday one  
for \$1 and one 50 cents. The names  
are withheld by request. The fund  
world replenishing as practically the  
whole amount on hand was needed to  
pay for 750 medals and 100 more  
are on the way from the factory.

**MILLIONS WORK IN MINES**  
More Than Half of the 6,000,000 Men  
Employed Below Earth's Sur-  
face Dig Coal.

The magnitude of the mining indus-  
try may be grasped when one realizes  
that more than 6,000,000 men are en-  
gaged in the mines of the world. Of  
this number 3,800,000 are employed in  
the coal mines and 2,200,000 in the  
metal mines. In addition, millions  
more are engaged in allied industries  
dependent directly upon the mines for  
coal and metal, according to the En-  
gineering and Mining Journal.

Mining is one of the hazardous in-  
dustries employing over 1,000,000 men  
in the United States, in which three  
out of every 1,000 men employed are  
killed every year by reason of some ac-  
cident. While complete data relating  
to non-fatal injuries are not available,  
reports to the United States bureau of  
mines for all metal mines in the  
United States show that about 200  
men per thousand per year are in-  
jured sufficiently to cause a loss of  
time. A reduction of 50 per cent in  
the number of mine accidents would  
mean a saving of 1,500 lives in the  
United States every year, in addition  
to reducing the loss of time and suf-  
fering resulting from more than 200,  
000 non-fatal injuries.

**Each Case Stands Alone.**  
An editor received this letter from  
a fresh youth:  
Kindly tell me why a girl always  
closes her eyes when a fellow kisses  
her?

To which the editor replied:  
If you will send us your photo-  
graph we may be able to tell you the  
reason.—Puck.

**Man's Mouth Still Waters When He  
Thinks of the Kind That Mother  
Used to Make.**

To a man still young enough to re-  
member sufficiently far back into his  
boyhood years to the time when he  
had never had enough dessert in his  
life, there is no word in the English  
language so suggestive of toothsome,  
lickerish joy as pie, plain pie—par-  
ticularly "pumpkin."

You can't spell pumpkin pie with an  
"m" and a "p," declares a writer in the  
Milwaukee Journal. Pumpkin pie is  
the kind one gets in restaurants, fla-  
vored with cloves and allspice. "Pun-  
kin" pie has cinnamon and ginger in  
it, and sometimes a hint of an unmen-  
tionable remedy fluid about which one  
would not dare ask mother. And of  
all the smacking, ambrosial delicacies  
catalogued under the genus "pie," the  
best is "pumpkin."

There are other kinds, of course—  
apple, peach, cherry, squash, blueberry,  
custard, lemon, mince—and every one  
probably has its value in the world.  
Some people even may prefer them.  
One never can account for different  
persons' tastes. But for boys, young  
men and elderly men whose stomachs  
have not yet grown old, there is none  
that will approach "pumpkin," the  
khaki-colored queen of pastries.

One grows hungry at the thought of  
"pumpkin" pie—the crisp, crinkly crust;  
the thick, rich pungent filling, with the  
dust of cinnamon tarnishing its tawny  
top; the creamy, dreamy, velvety, far-  
away taste as one's mouth closes on  
its prize. Some appetizing joys there  
are, but none that exceeds capturing  
a piece of pumpkin pie, getting it into  
one's hands, contrary to all social  
usage, biting into it, until one almost  
mires up to one's nose, until one can  
scarcely see over the top of the up-  
standing crust, and beginning the un-  
equaled delight of devouring the first  
mouthful. To taste it is to love it,  
love it and love forever.

**THIRTY YEARS' WAR PLAGUES**  
Sweeping Away of Lives Was Fright-  
ful, Combatants Themselves  
Being Mown Down.

In the famous Thirty Years' war, it  
is estimated, the population of central  
and western Europe was reduced from  
thirty millions to less than fifteen mil-  
lions, and yet during the whole of that  
time there were only forty important  
battles fought, and their total death  
casualties did not reach half a million.

All the rest of the frightful sweep-  
ing away of life was from plague and  
famine, which not only followed in the  
wake of the armies, but mowed down  
the combatants themselves.

Nor was the deadly work of these  
ferocious partners of war—the terrible  
triple alliance of the prayer book,  
plague, pestilence and famine—con-  
fined to the civil populations. They  
played equal havoc in the ranks of the  
armies themselves.

Even as recently as the days of Gus-  
tavius Adolphus that great captain is  
said to have broken up his winter quar-  
ters and begun his summer campaign  
nearly two months earlier than he had  
intended, because at the rate at  
which his soldiers were dying from dis-  
ease in their huts and barracks he  
would soon have had no army left to  
campaign with.

**Kicked Himself to Freedom.**  
Prisoners of war have had many  
thrilling adventures in their attempts  
to escape across the German frontier,  
but it would be hard to find a more re-  
markable story than the following, told  
in a Dutch paper: Four British es-  
caped prisoners of war, one French-  
man and seven Russians arrived at  
Oldenzaal, besides two German desert-  
ers. An amusing incident took place  
in the case of one of the Russians.  
He was seized by the German sentry  
when in the act of crossing the fron-  
tier, and in the course of the ensuing  
struggle threw himself on the ground.  
He fell half way on Dutch and half  
way on German territory. The Dutch  
sentry came to his rescue and tried to  
pull him across by the shoulders. The  
German pulled at the other end. When  
the Russian found that the Dutchman  
was helping him he started kicking  
with all his might, with the happy re-  
sult that he was safely pulled onto  
Dutch territory.

**Sausage Makers' Repartee.**  
An old story which is being revived  
nowadays concerns two rival sausage  
makers. They lived on opposite sides  
of a certain street in London, and one  
day one of them placed over his shop  
the legend, "We sell sausages to the  
gentry and nobility of the country."  
The next day, over the way, appeared  
the sign, "We sell sausages to the gen-  
try and nobility of the whole coun-  
try." Not to be outdone, the rival put  
up what he evidently regarded as a  
final statement, namely: "We sell sau-  
sages to the king." Next day there  
appeared over the door of the first  
sausage maker the simple expression  
of loyalty, "God save the king."

**Hailstorm Insurance in Germany.**  
Hailstorm insurance is more exten-  
sively carried on in Germany than in  
any other country. During the last  
45 years the German hail insurance  
companies have collected the enormous  
sum of 1,144,739,000 marks (mark—  
23.8 cents), in premiums, and have  
paid out 902,423,000 marks in indemni-  
ties. During the year 1915 the com-  
panies realized a profit of 7,399,375  
marks, which was much in excess of  
their average earnings, and the busi-  
ness of the year showed an increase  
in insured values of 404,000,000 marks.  
—Scientific American.

You never can tell. The jollier  
doesn't always have the most fun.

## "PUNKIN" PIE IS BEST OF ALL

Man's Mouth Still Waters When He  
Thinks of the Kind That Mother  
Used to Make.

To a man still young enough to re-  
member sufficiently far back into his  
boyhood years to the time when he  
had never had enough dessert in his  
life, there is no word in the English  
language so suggestive of toothsome,  
lickerish joy as pie, plain pie—par-  
ticularly "pumpkin."

You can't spell pumpkin pie with an  
"m" and a "p," declares a writer in the  
Milwaukee Journal. Pumpkin pie is  
the kind one gets in restaurants, fla-  
vored with cloves and allspice. "Pun-  
kin" pie has cinnamon and ginger in  
it, and sometimes a hint of an unmen-  
tionable remedy fluid about which one  
would not dare ask mother. And of  
all the smacking, ambrosial delicacies  
catalogued under the genus "pie," the  
best is "pumpkin."

There are other kinds, of course—  
apple, peach, cherry, squash, blueberry,  
custard, lemon, mince—and every one  
probably has its value in the world.  
Some people even may prefer them.  
One never can account for different  
persons' tastes. But for boys, young  
men and elderly men whose stomachs  
have not yet grown old, there is none  
that will approach "pumpkin," the  
khaki-colored queen of pastries.

One grows hungry at the thought of  
"pumpkin" pie—the crisp, crinkly crust;  
the thick, rich pungent filling, with the  
dust of cinnamon tarnishing its tawny  
top; the creamy, dreamy, velvety, far-  
away taste as one's mouth closes on  
its prize. Some appetizing joys there  
are, but none that exceeds capturing  
a piece of pumpkin pie, getting it into  
one's hands, contrary to all social  
usage, biting into it, until one almost  
mires up to one's nose, until one can  
scarcely see over the top of the up-  
standing crust, and beginning the un-  
equaled delight of devouring the first  
mouthful. To taste it is to love it,  
love it and love forever.

### SOLDIER WHO SERVED IN THE TRENCHES IS VISITING GRANVILLE

(Special to Advocate)

Granville, Dec. 14.—Mayor and Mrs. C. D. Coons delightfully entertained about thirty-six friends last evening at their home in East Broadway, complimenting Arthur Williams of Warren, who is visiting at the home of his brother-in-law and sister, Prof. and Mrs. Everett Johnston. Aside from the fact of its being the first social affair of the winter, the company felt a peculiar interest in meeting the guest of honor who served with the Canadian troops in some of the hardest fighting of the war, receiving the terrible wounds which laid him in the hospital for six months, and resulted in his honorable discharge from active service. Mr. Williams feels that his miraculous recovery from wounds, any one of which might have proved fatal, is evidence that he has been spared for a purpose, and he is trying to discover what that mission may be. In a simple, straightforward talk, he spoke of his feeling at the time the Lusitania was sunk: of his waiting for two days for this government to take action, and of his then hastening to Canada where he could get into action by enlisting. He spoke of the atrocities he had witnessed, which brought the abominations home to his hearers as no newspaper or book has been able to do; he spoke of the trench warfare, in all its details; he described the action which proved so disastrous to himself, when a shell exploded within 12 feet of him, tearing off his arm, putting out an eye, and cutting the flesh from his back. Tactless set in and the most eminent surgeons in Canada, where he had been sent, visited him and marvelled at the endurance which kept him alive. A friend whom he encountered on the street after his discharge, fainted at sight of him, having believed the report of his death. In spite of these disabilities Mr. Williams is cheerful, even jolly at times, and declares he only waits an opportunity to get another whack at the Hun. He tried to get into the aviation department, but the loss of an eye bars him from that service. In the meantime he is doing his part by talking. He will speak at the union service Sunday evening.

The guests bidden were representatives of the many coteries of Granville social life, and the whole evening was one long to be remembered. Sandwiches, cake, coffee and ice cream were served by the hostess.

Mr. and Mrs. C. J. Pence, who motored to Greencastle, Ind., to visit the family of their son, Prof. Raymond Pence, returned Sunday, and have housed the car for the winter.

Shepardson Cantonment—Y. W. C. A. bazaar, Saturday afternoon, December 15, 2:10, Doan gymnasium.

The annual Y. M. C. A. "circuit" will be held tonight in the Opera House. Eight fraternity stunts will be presented and a good rag-time orchestra will enliven the occasion.

The King's Daughters feel gratified at the success of their bazaar and supper on Dec. 8, and of the movie benefit, yesterday and last night, "Miss George Washington", which netted them a neat sum for their Christmas benefactions. These women know, as no one else in town knows, just how and where the money can be expended to the best advantage, and every one is content to let them distribute his or her mite.

### DOG IS BLAMED FOR BARN BURNING ON TORRENS FARM

The destruction by fire of J. Thomas Torrens' large barn, northwest of Utica, including twenty tons of hay, a quantity of grain and farm vehicles, is charged against a valuable collie dog which lost its life in the blaze.

Mr. Torrens was attending to his afternoon feeding. He had taken scraps and bones from the restaurant for his chickens, and had put them in a kettle over a fire which he had lighted near the barn. He had thrown down hay in the barn, then turned out the horses for water, and it was while he was with the animals he saw the barn on fire.

The origin of the fire seems to be traced to the dog, which lost its life in the building. It is believed that the dog attempted to secure a bone from the kettle, and in doing so his long hair caught fire, and in terror he ran into the barn where the hay was ignited. In no other way can one account for the dog being in the barn, and remaining there, when his master and all the stock were outside. There was no fire about except that under the kettle.

Mr. Torrens had insurance on both building and its contents.

Camouflage. Aren't you ashamed of scowling so, Willie? Just see what a sweet expression Tommy Jones is wearing.

Well, he has to wear it. He has just thrown a rock through the preacher's window, and he's waiting now to make the preacher believe it was done by a little boy in a blue suit who ran down the street.—Richmond Times-Dispatch.

### Give Her a Sweeper-Vac Vacuum Carpet Sweeper For Christmas At \$5.00, \$7.50 and \$9.50

There is no lasting or more appreciated gift than a good Vacuum Sweeper.

The Sweeper Vacs are one of the best made. They are roller bearing, they are easy running. Has carpet sweeper attachment, therefore gets dirt and ravelings at the same time. ## Remember This.

One advertisement will not do the work, neither will two advertisements. It takes continuous advertising to bring home the bacon. That is the reason our large institutions are larger. They were small businesses a few years ago, but through continuous advertising they have grown to large institutions. Think this over.
